

HOOVER PLAN REVEALS WORLD MARKETS RESPOND TO DEBT HOLIDAY

STOCKS AND COTTON SOARED AT OPENING MONDAY MARKETS

RESPONSE HOOVER PLAN INSTANTANEOUS IN IMPORTANT MARKETS

NEW YORK, June 22.—(AP)—An enormous volume of buying orders, released by the news of President Hoover's plan for helping Germany, sent stocks soaring today, put new life into the bond market and gave a substantial boost to many commodities.

Although final quotations of active shares listed on the New York stock exchange were a little below the best levels attained earlier in the final hour of the exciting session, net gains ranged from \$1 to \$1.50.

United States Steel common closed about \$5 higher and there were similar gains in American Telephone, Air Reduction, American Smelting, Du Pont and J. I. Case.

Issues showing net advances of \$3 to \$4 included American Can, American Power and Light, Bethlehem.

YOUTH CHARGED WRECKING BRIDGE OVER RED RIVER

STRUCTURE WAS DAMAGED TO EXTENT OF HALF MILLION DOLLARS

TEXARKANA, Ark., June 22.—(AP)—The trial of Earl Bell, 24, of Iowa, on charges of wrecking the \$500,000 Red river bridge span at Garland City on Sept. 3, 1930, with a charge of explosive, began today in Miller county circuit court.

Charley Brown, 25, of Lewisville, Ark., who previously had pleaded guilty and was sentenced to five years in prison, was expected to be the state's star witness.

Brown admitted the blasting, naming Bell as his accomplice in the plot. Bell declared he was not guilty and was prevented from making any statement at the preliminary hearing.

DRIVER OF DEATH CAR ACCUSED STEIN OF KILLING WOMAN

NEW YORK, June 22.—(AP)—Harry Schlitten, confessed driver of the automobile in which Vivian Gordon met her death, today accused Harry Stein of strangling the Broadway club habituée to repay a man to whom he was indebted.

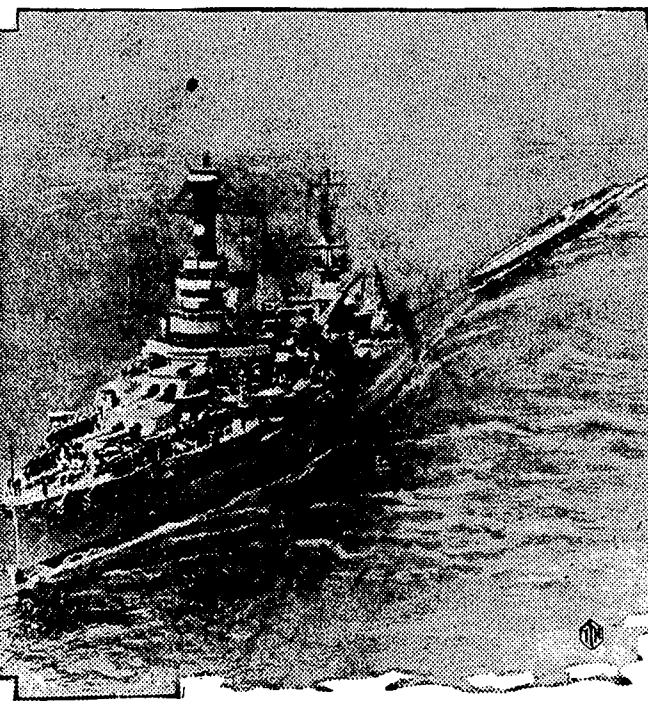

Schlitten made the accusation in testifying as a state witness in the murder trial of Stein and Samuel Greenberg. Schlitten said Stein asked him to get the car, saying "If I don't put a certain party out of the way, a friend of mine is going to end up in jail."

Many Oil derricks Wrecked by Storm

LAREDO, June 22.—(AP)—Workmen in the Miranda City oil district near Laredo began today the task of hoisting into position again 17 oil derricks blown down yesterday in a gale of wind, which was accompanied by a hard rain. Seven derricks toppled over in the Ball lease, five on the Crown central lease and two on the Mexican Central Oil company tract, and a derrick each on property of the Ruthana lease, Columbia oil company and Stanley and Winn.

MANY NET STARS. PHILADELPHIA, June 22.—(AP)—Eighty-five players, eight with national rankings were here today for the opening of the 44th annual National Intercollegiate Tennis championships on the grass courts of the Merion Country club. Among them were Bruce Barnes, Texas, ranked 10th on the nation's list.

WARSHIP TAKES SUB IN TOW

This picture illustrates how the U. S. S. Wyoming towed the disabled Aetec submarine Nautilus into Cork, Ireland, after heavy seas had put the engines of Sir Herbert Wilkins' undersea craft out of commission. The battleship was one of several vessels which responded to distress signals of the Nautilus after it became disabled in mid-Atlantic on the first leg of its journey to the North Pole. The Wyoming and her charge reached Cork harbor Monday.

ENGLAND'S NATIONAL PLAN OF UNEMPLOYMENT INSURANCE BRINGS TROUBLE TO NATION

(Editor's Note.—England tried solving the unemployment problem with compulsory insurance and created a \$400,000,000 "dole" fund deficit in 20 years. Burdening financial problems in the fourth of a series of articles on this subject.)

By EDWARD STANLEY

LONDON, June 22.—(AP)—England's national scheme of unemployment insurance has a lot in common with Job, except that Job didn't have so much trouble. It is 20 years old. The first ten years were the easiest for there was no unemployment during the war and the plan wasn't so all-embracing.

When the present general scheme came into operation in 1920 there had been accumulated the tidy sum of 22,000,000 pounds.

The present debt of the funds exceeds \$80,000,000 and is growing at the rate of about 1,000,000 a week. Cost of "transition" benefit for those whose benefit period has expired is estimated at around 30,000,000 for this year, perhaps more. This is paid out of the exchequer. In addition, the exchequer pays 15,000,000 pounds for its share of the regular insurance.

Most of its troubles have come from the unprecedented period of depression and from trying to carry too big a load.

It seems unlikely that any such plan could have come through such a period unscathed, and while the insurance plan has borne the brunt, it has accomplished many things.

It has been instrumental in maintaining the standard of living. It has relieved local authorities of much responsibility for distress. And it has kept the industrial population quiet.

There hasn't been a violent industrial strike in England since the general strike and it is a common phase—if not, factually correct—that the "dole" prevented revolution.

Its big problem is, of course, the gap between income and expense. Once accustomed to living "on the dole" workmen are declared to be less eager to seek employment. Employers, offering part time work, learn to lean upon the payments to place out wages. Friends of the plan are careful not to call it the "dole" but it is hard to keep headline writers and ordinary people away from the short word.

Berlin, June 22.—(AP)—Franz Kruckenberg's "Zeppelin on Wheels" today held a world's speed record on rails of 143 miles an hour. The silver-grey locomotive traveled 160 miles between Hamburg and Spandau, a suburb of Berlin, yesterday in one hour and 36 minutes, reaching the highest speed shortly after its departure and making an average speed of about 106 miles an hour. The time was four minutes better than that of the regular Lufthansa passenger plane between the two points.

Herr Kruckenberg, his wife, Willy Black, the pilot, and three assistants made the trip, pronounced smooth and uneventful except for short stretches of fog. The test was held early in the morning and the line was cleared of all other traffic.

The inventor said his coach was capable of even greater velocity and that the trial was made to demonstrate the "flying railroad" capacity to stick to a time table and carry passengers on schedule. The "Zeppelin on Wheels" is a stream line railroad coach driven by a propeller and powered by a 12-cylinder airplane engine. It seats 50 persons and travels four miles on a gallon of gasoline.

SUMMER DEPARTS FROM MIDWEST ON DATE IT IS DUE

TWO REPORTED DEAD IN HEAT WAVE THAT ENVELOPED WASHINGTON

CHICAGO, June 22.—(AP)—Summer, in its birthday caprice, slid down the thermometer today.

Over Sunday showers and breezes cooled off most of America, choking the heat wave that was spring's dying gasp.

From New England to California, temperatures were moderate. The Midwest, seared by a welter that burned out more than a score of lives, was succeeded by rains and Great Lakes winds.

In Kansas, Oklahoma and Texas the heat still ruled but cooler temperatures held sway to the West. Beneficial rains brought a respite to Montana. It rained in Denver and sent the mercury downward. Washington and Oregon were visited by showers blown down from Alaska.

In New York and other Eastern states, the weather changed its mind after reaching the nineties and scampered back into the low eighties.

But Maryland and parts of the South still sweltered. Two Die in Capital. WASHINGTON, June 22.—(AP)—Two persons were dead in the capital's heat wave today. As hundreds sought cool spots in parks and on nearby beaches over the top of the Benjamin G. Belt, 5, shipping board employee, succumbed while playing golf on the East Potomac Park course. The second fatality was Daniel Thompson, 52, a negro, who died while at work in a lunch room.

Nebraska And Kansas Banks Robbed Today

LYNCH, Neb., June 22.—(AP)—Robbers held up the Farmers' State Bank here this morning and escaped with approximately \$2,000. DODGE CITY, Kas., June 22.—(AP)—A lone, unmasked robber today held up the Holcomb State Bank and escaped with \$510. Two women, Mrs. Eva Sharer, cashier, and Mrs. Harry Brown, assistant cashier, were alone in the bank when the man entered. He forced the women to open the vault. A customer entered during the robbery, and the man fled.

THREE LETTERS TO SHIP'S DOCTOR MAY CLEAR GIRL'S DEATH

STARR FAITHFULL WROTE OF REGRET AT EMBARRASSMENT SHE CAUSED

NEW YORK, June 22.—(AP)—Three letters from the late Starr Faithfull to Dr. G. Jameson Carr, surgeon of the Cunard liner, Franconia, commanded attention today from Nassau county officials investigating the beauty's mysterious death.

As a voluntary witness with what he considers vital information, Dr. Carr has come from England with the letters. He arrived at Boston yesterday on the steamship Laconia and continued on the same boat to New York. He said he would not reveal the letters before submitting them to the authorities. One excerpt, as published, has had the girl predicting her death.

Inspector Harold King, chief of Nassau detectives, today gave out a letter written by Miss Faithfull to Dr. Carr on June 2 on Hotel Pennsylvania stationery. How King obtained the letter was unexplained. It follows:

"Dear Dr. Carr: I want to apologize and tell you how deeply I regret my conduct on the Franconia last Friday. I have come down hoping to renew our acquaintance, but instead I only made a fool of myself, and that was very disagreeable for you."

"I had brought some drinks on the boat with me and drank them too fast. I become intensely irrational when I drink and I want you to know how deeply sorry I am for the embarrassment I must have caused you."

"Very sincerely yours, 'STARR FAITHFULL.' Miss Faithfull visited the Franconia May 29, and was taken off intoxicated after the liner left New York. She was washed ashore at Long Beach, Long Island, June 6. She was reported missing June 7.

STATE HIGHWAY COMMISSION OPENS BIDS ON PROJECTS

LETTINGS FOR TWO-DAY SITTING OF BODY EXPECTED REACH \$6,000,000

AUSTIN, June 22.—(AP)—The state highway commission today started opening bids on 51 highway improvement projects and will award contracts for the work today and tomorrow. Cost of the program was estimated by engineers at slightly in excess of \$6,000,000.

The total included the improvement of 386.8 highway miles and construction of approximately 35 bridges. The road improvement cost was estimated at \$4,962,000; the bridge program at \$1,072,000, and the maintenance work at \$46,000.

Of the total mileage to be improved, 138.8 miles will be improved by concrete paving, 22.8 miles by grading and drainage structures and 22 miles of other types of hard surface.

The commission also started meeting with delegations from nearly 40 counties to discuss road problems.

Bids were opened today on the following projects: Houston counties, 17.1 miles concrete paving on highway 19. Tarrant county, 9.6 miles concrete paving on Highway 10. Harris county, 9.4 miles concrete paving on Highway 14. Gonzales county, 5.2 miles concrete base on Highway 81. Lipscomb county, 11.2 miles grading and drainage structures and concrete paving on Highway 32. Hemphill county, 13.8 miles grading and drainage structures, and concrete paving on Highway 33. Henderson county, T. & N. O. overpass on Highway 40. McLennan county, S. L. & S. W. overpass on Highway 7. San Patricio county, 3.7 miles.

ONE KILLED, SEVEN INJURED IN BATTLE AT WILDWOOD MINE

DEPUTY SHERIFFS AND PICKETS CLASH IN PITTSBURGH DISTRICT MONDAY

PITTSBURGH, June 22.—(AP)—One man was killed and seven others injured in a pitched battle early today between striking coal miners and deputy sheriffs seeking to enforce a court order prohibiting picketing of the Wildwood mine near here of the Butler Consolidated Coal company.

About 100 shots were exchanged between the ten deputies guarding the mine and a crowd of about 250 men and women who marched on the mine in defiance of the court order secured a week ago.

The dead man was a striker. Among the injured was one of the mine guards.

Plans for the march were announced at a mass meeting yesterday called by the National Miners' union, which is fighting the strike. Walter Z. Foster, national secretary of the trades union unit league, was reported to have led the strikers.

Strikers gathered in nearby mining towns long before daylight, moving about and in trucks over the hills to the Wildwood mine. Miners on their way to work, authorities said, were stoned and abused. The battle followed as the crowd moved to the mine entrance in efforts to prevent workers from entering.

The dead man, a miner, was identified through a mine check as Pete Zikarac, a former worker in the Wildwood mine. The injured deputy was Herbert Reel. All those hurt, with the exception of Reel, were taken to a hospital. Reel, hurt only slightly, returned to his post after receiving first aid treatment.

A witness who refused to disclose his name and Deputy Sheriff Reel said a woman urged the strike demonstrators to commit the first violence. The witness said the woman sat apart from the crowd and urged them to stone a car approaching with men on their way to work. Stones were thrown and glass in the car was shattered.

GOLDEN FAILS TO APPEAR. COLUMBUS, O., June 22.—(AP)—Johnny Golden of New York failed to show up for the qualifying rounds for extra place on the American Ryder Cup golf team today and the field proceeded with 12 entries.

WILD WEST GESTURE

Cornelius Vanderbilt, Jr., scion of the well known New York family, is alleged to have verified stories being circulated in Reno, Nev., that he chased Peter Arno, noted caricaturist, with a gun when he saw the New York artist escorting Mrs. Vanderbilt, the former Mary Davidson Weir, of Chicago. The gun, it developed, was unloaded. Mrs. Vanderbilt is reported to be living at home, while her husband is said to have gone to a hotel. Arno is in Reno seeking a divorce from Lola Long, New York writer. Vanderbilt and his wife are shown above with Arno in insert.

ATLANTA MAYOR FINDS HE MADE HIMSELF FAMOUS BY PROHIBITION FAILURE TALK

ATLANTA, June 22.—(AP)—Mayor James L. Key, whose criticism of prohibition while in Paris as a guest of the French government, started a flood of both approval and disapproval here, will be welcomed back to Atlanta by his Bible class of the Grace Methodist church as "a great statesman and a fine Christian gentleman."

The class is called "The James L. Key Bible Class" and the mayor is its chief teacher. Endorsement of Key was given yesterday in a rising vote of the class after W. M. Plimpton, former president, said that "We know Mr. Key to be a clear thinker, a great statesman, and a fine Christian gentleman."

On the other hand, the Atlanta Journal and the Atlanta constitution said a Democratic vice presidential boom has been started for Key by his friends.

Key is Sarcasm. NEW YORK, June 22.—(AP)—Mayor James L. Key of Atlanta, returning today, with 18 other mayors from a month's goodwill tour of France, characterized as "hair brained nitwits" some of his opponents at home who have criticized his utterances on prohibition and started a more for his recall.

"They are trying," he said, "to lift themselves out of the obscurity in which they belong." "Prohibition is corrupting the people and the government of the United States from top to bottom," he added.

GOTHAM BEER BARON DEAD AS BEER WAR OUTBREAK IN BRONX FLARES; 7 KILLED

NEW YORK, June 22.—(AP)—En-cased in a German silver coffin said to have cost \$20,000, and preceded by 35 carloads of floral offerings, the body of Daniel Iamascia, Bronx beer runner slain by police last Thursday morning, was buried in St. Raymond's cemetery today. Iamascia was a bodyguard of Arthur (Dutch Schultz) Fleckenheimer.

Following the huge casket came 75 coaches filled with mourners and behind the coaches came 60 private automobiles. Twelve plainclothesmen attended the funeral, in the belief that some of Iamascia's friends of the underworld might appear, but few known racketeers were present.

To permit the crowds to inspect the silver coffin, it was carried around the block surrounding his home on the shoulders of six men before it was put in a hearse.

NEW YORK, June 22.—(AP)—Police today were confronted with a beer war outbreak, which already has taken seven lives in the last few months. The latest killing was that of John Soricelli, 31, an aide to Dutch Schultz, Bronx beer lord. Soricelli was shot down in his own doorway when he answered the doorbell of his apartment on Morris avenue.

He staggered back into the house, asked his wife for a cigarette and calmly smoked until an ambulance took him to the hospital. Detectives who questioned him were told, "Don't bother me. Can't you see I'm dying. An hour later he died."

Two Negroes Die in Pennsylvania Chair. BELLEFONTE, Pa., June 22.—(AP)—Clarence Williams, 20, and Cleo Peterson, 23, Allegheny county negroes, were electrocuted at Rockview penitentiary today for the murder of Burgess August 11.

Robert Smith, also found guilty of the same crime, died in Allegheny county prison. The trio was convicted of slaying Braum in his West Elizabeth meat market last October 4 during

MARKET ADVANCES ARE REFLECTED IN HOOVER AID PLAN

STAND OF FRANCE ON MATTER EXPECTED TO MAKE OR BREAK IT

(By The Associated Press.) President Hoover's proposal for a year's suspension of war debts and reparations payments was reflected in a strong upswing on the stock markets of the world today.

The new York stock exchange experienced its busiest opening since the 1920 panic as leading stocks advanced \$2 to \$15 a share. The Berlin bourse responded with a boom on all markets, leading shares going up as much as 30 points, while there was not a minus sign on the whole list when the market closed.

London showed similar activity, stocks going up four to nine points higher, later advancing to 11 points increase. Copper and tin soared strongly.

Paris also showed a gain, the bourse recovering in considerable breadth and prices in some instances advancing 10 per cent with a very firm closing.

Other corners of the world also reflected buoyancy, in Shanghai bar silver improving nearly ten per cent; stocks rallying in Tokyo while cotton improved on the Bombay market.

While the world's stock markets swung upward, world capitals (Continued on Page 2)

OIL MEN PRESENT EAST TEXAS OUTPUT PLAN TO COMMISSION

TOLD COMMITTEE WILLING FOLLOW ANY PLAN, BUT STILL WANTS SESSION

AUSTIN, June 22.—(AP)—Public session was called as the chief force which would make effective the Cranfill plan of East Texas oil stabilization at a meeting of about 30 oil men with the railroad commissioners here today.

Supporters of the plan said it was backed almost 100 per cent by East Texans and that few if any operators would defy such a strong public opinion.

Chairman F. W. of Dallas, chairman of the arbitration committee named after the plan was agreed upon, admitted there were a few violators at this time. He said a check yesterday showed 10 violators, which he named. The plan was inaugurated Saturday.

The Arkansas Fuel Oil Company, a Henry L. Doherty concern, was mentioned as the only large dissenter. The Arkansas Fuel Oil Company has its in its power to wreck this plan, Captain Lucey said. Lucey said he favored a personal appeal to Mr. Cranfill, perhaps through the national government.

Lucey asked for a railroad commission order in line with the plan. He said several operators were unwilling to break their contracts without support of a legal order and pointed out the big purchasers would not make pipeline connections until the railroad commission had approved the plan.

Charles F. Roesser of Fort Worth, who favors additional legislation, pointed to some of the asserted "inequities" of the Cranfill plan.

He stated that allowable production (Continued on Page 10).

EIGHT MEN JAILED IN HOUSTON WHILE POLICE INVESTIGATE

HOUSTON, June 22.—(AP)—Eight men were in jail today while police investigated a report by Will Santell and W. F. Blodgett of Dallas, that they were lured to a house, robbed of \$210 and a watch and left bound in a closet last night.

Santell said Blodgett was his guest. Yesterday afternoon, Santell reported, a man he knew, casually called for him, told him some friends were gathered at the house and invited them over. "As we entered the house, two men jumped from behind a dressing room and covered us with pistols," Santell said today.

MARKET ADVANCES ARE REFLECTED IN HOOVER AID PLAN

(Continued from Page 1)
buzzed politically as the various governments began consideration of the part they must play in the acceptance of the president's proposal.

Paris, apparently held the key to the situation and it was understood the cabinet will consider it tomorrow.

WASHINGTON, June 22.—(P)—Upon France's plan, more than any other one thing, rests the future of America's offer for a one-year holiday from war debt and reparations payments.

Great Britain is sympathetic toward the plan; Germany is apprehensive; republican and democratic party leaders forecast that the necessary legislation will pass.

France, however, will pass wide reaction for the most part, is favorable. So, diplomatic circles in Washington believe, responsibility for the next step is with France.

President Hoover has reason to think that the French attitude will be favorable. Secretary Mellon, now in England, has conferred informally with French representatives as well as with other European nations, and has reported these discussions brought encouraging comment from all involved.

At his Rapidan camp, where he went for the week-end after announcing his proposal which he described as designed to speed economic recovery, President Hoover learned with gratification of the generally friendly comment. Additional reports today elaborated the measure in information telephoned to him at the Rapidan.

Although Great Britain's general attitude was well understood here, Prime Minister Ramsay MacDonald's elaboration of that position awaited eagerly. But Washington is most interested in the French cabinet meeting which it was informed will consider the question this week.

Specifically, it wants to learn how France will view a moratorium on German reconstruction payments.

While President Hoover declared reparations were wholly a European problem and war debts owed America were settled upon a basis not contingent upon reparations, he made his one year moratorium offer conditional upon suspension of payments on reparations and other intergovernmental debts. The president said:

Subject to confirmation by congress, the American government will postpone all payments upon the debts of foreign governments to the American government payable during the fiscal year beginning July 1 next, conditional on a like postponement on the part of all payments on intergovernmental debts owing the important creditor nations."

A moratorium on all debts would cost the United States about \$25,000,000 during the year, and France in the neighborhood of \$100,000,000. Germany's payments ordinarily would amount to about \$425,000,000.

Goes To Hindenburg.
In studying his plan to aid economic recovery by helping distressed Germany, President Hoover sought detailed information, as to conditions in that country. Declining to rely upon available information, he went directly to President Von Hindenburg. The reply was confidential, but Secretary Stimson said its description of conditions "corresponds to that obtained from other official and private reports and which is publicly current."

Washington was pleased by the German attitude as explained by Foreign Minister Curtius because it contained a friendly expression toward France. Curtius said his country was anxious to put a stop to the world economic crisis and we want to co-operate with France toward that end in every possible manner."

No Conference Be Held.
WASHINGTON, June 22.—(P)—Secretary Stimson said today an international conference was out of the question if President Hoover's debt moratorium proposal was to have the desired effect.

The secretary said speedy acceptance of the proposal by Germany's creditors was necessary if it was to have the desired effect and there was not time for an international discussion of the proposed one year moratorium.

Meanwhile, it became known that President Hoover began the movement which resulted in his proposal June 5 a conference with Secretaries Stimson and Mellon and Undersecretary Mills of the treasury.

At that time, it was said at the white house today, Secretary Mellon, who was just leaving for Europe, was asked to make a personal investigation, and the different departments were requested to investigate the worldwide situation.

Since June 5, it was said, the chief executive has been holding daily conferences on the subject as much in war debts, it was hoped she too, would become a party to the agreement.

Describing President Hoover's proposal as a "gift from heaven," Foreign Minister Julius Curtius said:

"His plan is a finger on the sore spot and now comes one of those rare moments in history when all reserve should be thrown aside. I can only say that we endorse with unqualified joy the heroic declaration which the president has made."

"Not only will it lighten our burden, it will remedy the situation throughout the world. I do not care what people say about lower prices and such-like economic factors; at the bottom of it all is lack of confidence, that is the decisive factor and Mr. Hoover has been quick to see it. I express our deep appreciation for the services of Ambassador Sackett in bringing about this action. This was, quite frankly, has advocated solution along the lines Mr. Hoover now proposes."

Germany's foreign policy of conciliation and co-operation had been vindicated by the turn of events. Curtius said.

Far East Optimistic.
SHANGHAI, June 22.—(P)—President Hoover's action on intergovernmental war debts today caused a wave of optimism in the financial circles of the Far East. Bar silver jumped nearly 10 percent in value while gold bars on the contrary closed at 735 taels. As compared with a closing of 800 taels Friday.

Affects Tokyo Market.
TOKYO, Japan, June 22.—(P)—Stocks rallied here today on the strength of President Hoover's announcement concerning a debt moratorium. The silk exchange was lively and showed good advances. Ice, cotton yarns and silk quotations were strong on the Osaka market.

Liverpool Cotton Jumps.
LIVERPOOL, England, June 22.—(P)—There was a sensational rise on the Liverpool cotton exchange today in consequence of President Hoover's war debt moratorium proposal. The market opened with a 34 point advance and climbed rapidly.

Operators who had been playing short faced heavy losses.

Premier MacDonald Pleased.
LONDON, June 22.—(P)—Prime Minister MacDonald told the house of commons this afternoon that the British government cordially welcomed the striking declaration on war debts and reparations payments made by President Hoover.

"The British government," said the prime minister, "desires at once to state that it subscribes wholeheartedly to the principle of the president's proposal and is prepared to co-operate in elaboration of the details with a view to giving practical effect to it without delay."

Britain Greatly Pleased.
LONDON, June 22.—(P)—President Hoover's proposal for a one year moratorium on inter-allied war debts and German reparations was received today with the greatest gratification since the entry of the United States into the world war.

His picture was widely published in newspapers with comments similar to that accorded him when he was director of Belgian relief work more than thirteen years ago. His plans dominated conversations in political circles and were given the feature position by the entire press.

The government's action thereon is awaited with the keenest interest. Although the proposal has been discussed by Prime Minister MacDonald, Chancellor Philip Snowden and Foreign Secretary Arthur Henderson, it has not yet come before the cabinet as a whole and a special meeting is understood to have been called.

and during his western trip he talked over the telephone several times daily with officials who were conducting the investigation.

The president determined at the start, white house officials said, that any action taken must be on a non-partisan, non-parliamentary basis. With that in view he conferred with democratic leaders as well as republicans.

The president was described as very much gratified at the response to his proposal and especially the effects it has had on the commodity.

Dictated By Fear.
MOSCOW, June 22.—(P)—The official organ Izvestia declares today that President Hoover's war debt proposal is "dictated by fear of German revolution."

"According to present agreements Germany is to share only two-thirds of the advantages granted by the United States to her debtors," the newspaper says. "This will hardly constitute basis of the payments by Germany according to the Young plan."

"Germany's payments to the Young plan considerably exceed those of the United States, which will play an im-

Germany Rejoices Over Hoover Plan

BERLIN, June 22.—(P)—Germany has accepted with nationwide rejoicing President Hoover's offer to defer for one year payments on inter-government war debts.

In announcing its adherence yesterday, the government expressed hope that Great Britain and Italy also would fall into line with the American plan to end world-wide economic depression.

Though it was admitted that France annually receives about 10 percent of the world's production of goods, the cabinet accepted the proposition—assumed to be certain—the sanction of parliament would have to follow and it is understood that a special bill for the purpose will be introduced.

The sore spot and now comes one of those rare moments in history when all reserve should be thrown aside. I can only say that we endorse with unqualified joy the heroic declaration which the president has made."

"Not only will it lighten our burden, it will remedy the situation throughout the world. I do not care what people say about lower prices and such-like economic factors; at the bottom of it all is lack of confidence, that is the decisive factor and Mr. Hoover has been quick to see it. STRONG WILLS OF POPE AND DUCE BRING DEADLOCK

NO SOLUTION YET IN CONTROVERSY OVER CONTROL ITALIAN YOUTH

ROME, June 22.—(P)—The strong wills of Pope Pius XI and Premier Mussolini were said today to have produced a deadlock in their controversy over the control of Italian youth.

Following the Pope's statement that an accord was not even in sight, a Vatican authority said the negotiations have not progressed a millimeter, discrediting reports that the way had been opened for an amicable solution of their differences.

The clash of ideas with 15,000 Catholic action subsidiary clubs, which were closed by Duce's order. He claimed the clubs had become political and the Pope insisted they had not. Back of that, however, is the old quarrel regarding the church and the state regarding who shall educate the youth.

Important role in determining the attitude toward the Hoover proposal of France, which is receiving from Germany more than she pays America.

The clash of ideas was almost equal to those which Germany pays England, a fact that explains London's generosity."

Prevented Overthrow
LONDON, June 22.—(P)—President Hoover's sensational intervention in the German financial crisis is said in high diplomatic quarters in London to have averted a strong likelihood of the overthrow of the present German government and the substitution of a government composed of communists or other elements opposed to the present regime.

It is said that such a collapse would have caused no surprise in London, nor would Great Britain have been surprised had the overthrow been attended by force.

Official quarters in London refused to take cognizance of such a rumor but at the same time they said that the foreign office had been watching the political situation in Germany with deepest anxiety for a considerable period.

This grave political position was inextricably linked with the tottering finances of the country.

Rome Optimistic
ROME, June 22.—(P)—The Italian government, although not yet officially informed of President Hoover's moratorium proposal, radiated optimism over it today.

John W. Garrett, the American ambassador, visited Dino Grandi, Italian foreign minister, at noon but as no official instructions had been received from Washington he was unable to communicate the details of a plan already made known through the newspapers.

For the same reason official comment was withheld.

Italy has received rather more in reparations than she has paid on her debts to the United States and Great Britain, and this margin would be sacrificed during the proposed moratorium.

BERLIN, June 22.—(P)—Chancellor Brüning today characterized President Hoover's war debt plan as "an historic event of the very greatest significance" and expressed the German nation's thanks to the United States.

The chancellor's comment came in a discussion with a small group of American newspaper men of the president's proposal that war debt and reparations payments be postponed for one year.

Mansfield Inclined To Support Plan
HOUSTON, June 22.—(P)—Congressman J. J. Mansfield, democrat, "will be inclined to support" President Hoover's proposal for a one year moratorium on inter-governmental debt payments in the congress which convenes in December, he said over the telephone from his home at Columbus, Texas, today.

"However," he added, "it is my understanding that American bankers hold more German government obligations than the United States government—which would not be effected by the president's proposal."

"If these American shysters would loosen up their demands on Germany, it would help a lot

Fall Examined to Determine Fitness Receive Sentence

EL PASO, June 22.—(P)—Army Physicians today continued their physical examination of Albert E. Fall, former secretary of the interior, who entered the William Beaumont hospital Saturday.

The government sought to determine whether he was physically able to go to Washington to be committed to prison for one year.

While physicians carried out instructions of the surgeon general of the army which stated no information would be given out on the progress of the examination, it was learned from other sources that Fall was "quite comfortable."

FUNERAL SERVICES SUNDAY AFTERNOON FOR FOSTER CROFT

Funeral services for Foster Croft, aged 30, Corsicana cotton man, who died in the P. and S. hospital about noon Saturday after an illness of several days, were held from the First Baptist church Sunday afternoon at 5 o'clock.

Rev. J. Howard Williams conducted the services, and interment was in Oakwood cemetery.

The deceased was for several years an employee of the Sun-Light Publishing company, later entering the cotton business, and for the past several months he had been connected with the branch office of the Texas Cotton Cooperative in Corsicana.

Surviving are his mother, Mrs. C. N. Croft, 207 North Twelfth street; two brothers, William Croft and Charles Croft of Corsicana; and three sisters, Mrs. A. L. Laird of Haskell, and Misses Alberta and Flora Croft of Corsicana.

Active pall-bearers were Alvin McCleary, Robert Irvine, Robert Cooksey, Max Tatum, C. O. Curington, Palmer Tatum, Carl Curington and Hubert Brazelton.

The funeral was directed by the Sutherland Funeral Home.

more than anything Hoover can accomplish on the Rapidan. The congressman said the proposal would double Germany's burden two years hence. It was his belief, however, he added, that the proposal, if adopted, would be a big factor in hastening world recovery from the economic depression.

He expressed continued opposition to any move toward cancellation of war debts owed to the United States by the European nations.

Texas Congressman Questions Plan

HOUSTON, June 22.—(P)—Congressman Daniel E. Garrett, democrat, Houston, issued a statement today in which he questioned President Hoover's war debt moratorium plan.

"It is common knowledge," the congressman said, "that large financial groups in the United States made the loans to foreign countries since the war running into billions of dollars."

"I can not believe that the president intends that these large holders of foreign bonds and securities shall continue to collect their indebtedness, both principal and interest, while our own government is extending leeway to its creditors."

"President Hoover announces the doctrine, as a cure for the present deplorable financial depression, that all governments owing each other shall quit paying their debts, both principal and interest, for a period of one year."

"Why should the great international government have a rest period from indebtedness for one year, while millions of our citizens, who are groaning under heavy obligations they can not meet, must continue to pay?"

"Should not the congress and state legislatures give serious consideration to the distressed conditions of our own citizens, millions of whom are out of employment, before we start on a program of our nation giving away further billions of dollars on the war debts of other nations?"

"It should be remembered that in adjustment of war debts with foreign nations—our allies in the world war—we have already donated many billions of dollars for the payment of the debts arising from the most terrible war that ever cursed the earth."

DEVELOPMENT OF MINERAL RESOURCES SOUTH TEXAS BE GREATLY STIMULATED

DALLAS, June 22.—(P)—James C. Kennedy, president of the Central and Southwest Utilities Company, predicted today that development of mineral resources in South Texas would be greatly stimulated by the plan of the Southern Alkali Corporation for a \$10,000,000 plant at Corpus Christi, on which work is to be started within a few weeks.

"Literally millions of tons of Southwest Texas raw materials will be used by this company," Kennedy said. "When the plant is running at full capacity it will consume approximately 37,500,000 cubic feet of gas daily, 2,500 tons of salt, 2,500 tons of limestone, not to mention great quantities of sulphur, all found in South Texas."

Products to be manufactured by the new company will include basic alkalis, by-products of soda-ash, sodium carbonate, caustic soda, calcium chloride, as other chemicals used in the manufacture of paints, glass and soap. Later, plate and window glass may be added to the company's output.

It was estimated the new project would add more than 1,500 families to the population of Corpus Christi.

Chamber Directors Meet On Tuesday
Regular bi-weekly meeting of the board of directors of the Corsicana Chamber of Commerce will be held Tuesday morning at 11 o'clock, according to notices mailed to members Saturday. This will be the first meeting this month for the directors and a number of important matters will be presented Tuesday.

County Attorney's Auto Was Stolen
While Cleo G. Miller, Navarro county prosecuting attorney, was enjoying a week end in Austin, parties unknown took his automobile from its parking place on West Fifth avenue, near Beaton street, some time Saturday afternoon. The car was parked there by Ray Miller, brother of the county attorney, for a few minutes and when he returned the car was gone.

No trace of the car had been found Monday morning.

to mention great quantities of sulphur, all found in South Texas. Later, it is expected that millions of tons of Texas silica sand will be added to the quantity of raw materials consumed."

Members of the board of regents of the University of Texas will have important matters of building and finance to consider at their next regular meeting on July 11, Beauford H. Jester, member of the board said Monday morning.

The building program for the coming year, and other matters of policy and finance will receive the attention of the regents; efforts are being made to increase the revenue of the university in every possible way, Mr. Jester said.

Fred W. Walker, basketball coach of the University of Texas, conferred with Mr. Jester Saturday concerning the athletic situation at the state school, and Mr. Jester intimated that while the regents considered the athletic problems the business of the athletic council, that the regents would very probably give Coach Walker a hearing if he desired one.

FINE PLUMS.
Mrs. Mel Smith, 1118 West Twelfth avenue, has a very fine plum tree in her yard. The tree is heavily laden with fruit of large size and exceptional flavor.

Mrs. Smith says she had already gathered eight quarts of fruit from the tree and much more remains. One small branch had twenty-five plums on it while there were nine plums in one cluster.

HOOVER STUDIES PLANS TO ASSIST GERMAN PROBLEMS

WILL HOLD MORE CONFERENCES; ISSUED STATEMENT FRIDAY

WASHINGTON, June 20. (AP)—Early announcement of a proposal to suspend all war debts and reparations payments for a year was expected from the white house as democratic and republican members of congress assured President Hoover today of their support.

Congressional approval will be required for a suspension in the debt payments. Congress does not meet until December but the next debt payments are not due to be paid until December 15.

Mr. Hoover received general approval for the moratorium proposal from those members of congress who could be reached personally. With some he talked on the telephone, hastening to complete the negotiations.

Those in touch with the situation believe the white house will continue to work with the foreign governments through Secretary Mellon who is now in London in conference with British officials.

(By the Associated Press.) European capitals responded eagerly today to President Hoover's statement that the United States was interested in lengthening the economic situation in Europe.

The president's specific mention of the situation in Germany was followed by a strengthening of words in Berlin where some of the leading issues gained as much as 15 points. Financial pages hailed the movement as a Hoover boom.

The German cabinet was understood to have given precedence to the president's statement at its meeting today.

While official comment was lacking, the dispatches from Washington also caused a sensation in London and the keenest kind of interest in Paris.

In London great strides toward at least temporary alleviation of Europe's economic distress were expected while the visit of Andrew W. Mellon, American secretary of the treasury assumed an even greater significance. The public stress on its private character.

Outstanding importance was attached to the president's statement in Paris where it was said France also desires to help German reconstruction.

WASHINGTON, June 20. (AP)—President Hoover's contemplation of a next week a comprehensive statement concerning conferences with Republican and Democratic leaders over the German reparations problem.

In the meantime, it was said at the White House, the president will continue his conferences throughout today and into next week.

Before his usual working hour today the chief executive had at his office Assistant Secretary of State Castle and Assistant Secretary Mills of the treasury.

Soon after, he conferred with Senator Ashurst, Democrat, of Arizona, who refused to comment upon leaving the executive offices. Ashurst was followed by Representative Treadway, Republican of Massachusetts.

Representative Nelson of Connecticut, the house Republican leader, who took part in the beginning of the discussion yesterday, spent last night at the White House.

The president, in view of the developments concerning the German situation, had no formal engagements for the day. As a general rule there were from six to a dozen regular callers.

WASHINGTON, June 20. (AP)—President Hoover's plan to help Germany was awaited today as the possible next step in combating the world business slump.

It was indicated that Mr. Hoover would hold further conferences with political leaders before bringing to maturity the proposals he said would be designed to speed economic improvement in the United States and abroad, especially in Germany.

After several discussions yesterday, the president issued this statement:

"Since my return from the Central West yesterday, I have conferred with those leaders of both political parties who are present in Washington, with respect to certain steps which we might take to assist in economic recovery, both here and abroad.

"These conversations have been particularly directed to strengthening the situation in Germany. No definite plans or conclusions have yet been arrived at but the response which I have met from the leaders of both parties is most gratifying. Any statement of plan or method is wholly speculative and is not warranted by the facts.

"Despite that warning, there was of course, speculation. Among the steps which some persisted might be taken to help Germany were a moratorium of war debts and reparations and a loan to help Germany through her financial straits.

Germany's recent cry that the burden of reparations payments was intolerable already had revived discussions of the fact that under the Young plan she might suspend the major portions of reparations payments for two years.

Financial observers have felt that Germany would calm the moratorium only as a last resort because of the possible effect upon her credit.

That Germany wants a change in the situation has been indicated by developments following her appeal for revision of the Young plan, which calls for payments this year of more than \$425,000.

German government leaders have conferred with Prime Minister MacDonald and Foreign Secretary Henderson in England, and the English statesmen are going to

OVER 8000 LILY BLOOMS IN ONE PLOT

BODY AGED WOMAN SENT TO TENNESSEE SATURDAY MORNING

The body of Mrs. Martha Elizabeth Price, 86, pioneer resident of Tennessee, who had resided here about one year, was forwarded to Hays Crossing, Tenn., Saturday morning and burial will be made there Sunday afternoon.

Mrs. Price died at the home of her daughter, Mrs. May Wilkes, 1001 East Seventh avenue, Friday morning at 4:50 o'clock after an illness of only three days.

Surviving are one son, N. K. Price, and one daughter, Mrs. Wilkes, both of Corsicana.

The body was forwarded to Tennessee by the Corley-McMahon Funeral Home.

Still and Liquor Captured Friday in Freestone County

FAIRFIELD, June 20. (Spl.)—The sheriff's department captured a still and secured a large quantity of liquor near the new pump station Friday.

The officers also raided a negro "choc" joint and secured several bottles of beer and made one arrest. The joint was located on the highway, two miles southwest of Fairfield.

Humble Company is Laying Pipeline in Freestone County

FAIRFIELD, June 20. (Spl.)—Work has started on another pipeline in this county, the Humble Company laying a line connecting its tank farm near the new pump station east of Fairfield.

This work will continue the employment of a large force of men in this section.

Berlin soon for further discussions.

Interest in war debts and reparations has been heightened, too by the visit of Secretary Mellon to England and the announcement that Secretary Stimson also was going abroad.

Although Mellon denied that his trip had official significance, much importance has been attached abroad to his presence.

Hoover Statement Causes Sensation In London Circles

LONDON, June 20. (AP)—President Hoover's statement that the United States is interested in strengthening the economic situation in Europe created a sensation in London today and added interest to the presence of Secretary Mellon.

Newspapers featured the news under arresting headlines, indicating that the statement was of great importance to the United States would have far-reaching consequences.

The Daily Mail took the view that there are numerous persons here who persist in regarding the American policy respecting the repayment of war debts as ungenerous to Great Britain's policy in undertaking re-payments as at best quixotic. If ever the United States consents to the readjustment of debts, said the Mail, it will be for its own salvation and not as an act of generosity.

Close observers of events said America, by taking steps to aid Germany, would at the same time indirectly strengthen all Europe and the world at large. Such action was described as an "epochal development."

The president's declaration was linked to the visit of Secretary Mellon and the forthcoming trip of Secretary of State Henry L. Stimson, as an event of profound importance to the economic future of Europe.

Although Mr. Mellon has insisted his presence here is for personal reasons, there is an increasing tendency to connect it with the announcement that Prime Minister MacDonald and Foreign Secretary Henderson will go to Berlin in July for a second Anglo-German conference.

Germans Pleased With Hoover Plan

BERLIN, June 20. (AP)—President Hoover's assumption of the initiative in the attempt to assist Germany was greeted with warmest appreciation today in German political and official circles as the full significance of somewhat meagre press reports from Washington was realized.

When the cabinet convened at noon there was a spirit of buoyancy such as has been unknown in recent weeks. But official comment was reserved. This apparently was caused by the fact that Germany often has entertained hopes which afterward failed to materialize.

It was understood that the cabinet shelved all other questions and concentrated its discussion on the Hoover statement.

A monument of blooming flowers that come each spring to keep fresh in the memory of those who loved and honored a mother gone to her reward—cared for by loving hands of children left behind and distributed among close friends of the family each season to bring happiness and pleasure to others—this in a few words is the sentiment attached to the bed of lilies in the yard of the W. H. McElwee homestead on West Fourth avenue.

This bed of lilies attracts the attention of hundreds of people each spring and when the plants are in bloom visitors are always driven by the home when on tour of the city.

These lilies were planted in 1905 when the late Mrs. W. H. McElwee placed five bulbs in the bed. They are only disturbed every few years when it is necessary to separate the ever increasing plants.

They are still in the original bed where first planted by the mother. This year the plants were much larger than usual, all being from four to five feet high and numbered some 3200 on which there were approximately 8,000 blooms—a mass of white on a background of green and the atmosphere permeated with perfume.

Three children survive the mother who planted the bulbs and they care for the lily bed. Miss Lizzie and Miss Ann McElwee still live at the old homestead while W. T. McElwee lives nearby.

Infant Daughter Of Local Minister And Wife Buried

LaWana June Welch, six-day-old daughter of Rev. and Mrs. J. D. Welch, 215 South Twentieth street died Saturday morning at 7:30 o'clock and the funeral services were held Saturday afternoon at three, at the Petty's Chapel cemetery where interment was made.

The services were conducted by Rev. J. E. Demming, Baptist minister.

Rev. Welch formerly resided at Jacksonville, and recently moved to Corsicana. He is pastor of the Petty's Chapel Baptist church.

Surviving are the parents and one sister, Wanda Mae Welch.

The funeral was directed by the Corley-McMahon Funeral Home.

Navarro County School Districts Get State Bus Aid

Navarro county consolidated rural high schools have received \$5,200 transportation aid from the state department of education, according to a statement made by Dan D. Hanks, county superintendent, Friday morning.

The aid was as follows:

Union high school	\$900
Purdon	600
Navarro	900
Eastland	600
Petty's Chapel	700
Providence	1,200
Powell	300
Total	\$5,200

Wolves Increasing In Athens-Malakoff Area; Raid Poultry

ATHENS, June 20.—Timber wolves are reported to be rapidly increasing between Athens and Malakoff, and considerable complaint is being heard relative to inroads into the poultry of farmers of that section.

A number of wolves have been killed and captured and farmers in that section are organizing to kill and run the wolves out of the section.

Farmers report that the wolves are increasing in numbers and that a few gray wolves have been seen.

COURTHOUSE NEWS.

District Court

The Navarro county grand jury recessed late Friday until Tuesday morning at 10 o'clock. No indictments were returned.

Next week will be the final week of the April term of the thirteenth judicial district court.

The trial of the case of John Boyte vs. Texas Indemnity Insurance company, compensation, was still in progress in the district court Saturday morning.

District Clerk's Office

The following case was filed: W. C. Calloway vs. Humphries Oil corporation, damages. The petition seeks damages in the sum of \$10,300, as a result of an alleged auto accident on highway 14, July 1, 1929, in which he claims he received injuries.

County Clerk's Office

The following case was filed: M. Evans and A. Heyman vs. Ben Morgan and W. H. Hall, appeal from W. W. Clifton's justice court.

Sheriff's Office

Three white youths were arrested near Grape Creek bridge, south of Navarro, Friday afternoon and were lodged in the Navarro county jail by Deputy Sheriff J. M. Westbrook, and are due to be charged by complaint during the day with theft.

It is alleged that \$14.87 in cash, a knife, a razor and two razor hones were taken from the home of Sol Armstrong, one and one-half miles south of Navarro, Friday afternoon.

Deputy Westbrook stated that he recovered the missing property. A white man was charged by complaint Friday afternoon by C. L. Knox, assistant county attorney, with alleged theft by bailer in connection with the alleged taking of a \$220 diamond ring from a woman by the accused man had not been arrested Saturday morning.

Justice Court

One person was fined on a charge of drunkenness Friday afternoon in Judge W. W. Clifton's court.

Commissioners' Court

The county commissioners were still busy as a board of equalization Saturday morning.

FUNERAL SERVICES SATURDAY MORNING FOR H. D. HOWARD

Funeral services for H. D. Howard, 78, former resident of Corsicana, who died at his home in Blessing, Tex., Thursday, were held from the chapel of the Sutherland Funeral Home Saturday at 11 a. m., and interment was made in the Dresden cemetery.

The services were conducted by Rev. Langston of Wortham.

Mr. Howard moved to Blessing about a year ago, he formerly resided in Purdon, Eureka, Corsicana and Dallas, moving to Dallas from Corsicana about eight or ten years ago.

Surviving are two sons, Clyde Howard, Dallas and Willie Howard, Blessing; one daughter, Mrs. Nora Lewis, Blessing, and one brother, C. D. Howard, Corsicana. The body arrived in Corsicana on the early morning Southern Pacific train Saturday.

Concrete Paving in Freestone County Is Progressing Rapidly

FAIRFIELD, June 20. (Spl.)—Concrete work on Highway 75 is rapidly nearing Fairfield from the South, only about two miles remain on the section from Hog creek to Fairfield. If there is no delay, this section will be completed to Highway No. 7 in Fairfield the first week in July.

One hundred and twenty feet of Highway No. 7 is being torn out in order to bring the two highways to a proper grade at the crossing.

A second crew will begin pouring concrete between Dew and Buffalo as soon as they complete a contract in Leon county on Highway 75.

CHAIRMAN LUCEY SAYS OPERATORS OBEYING ORDERS

PRACTICALLY ALL INDEPENDENT OPERATORS CHOKED WELLS IN

TYLER, June 20. (AP)—Capt. J. F. Lucey, chairman of the East Texas arbitration committee, in charge of administering the voluntary 300-barrels per 20 acres plan of prorating production in the prolific oil pool, said today he had information that "practically all" independent operators had choked their wells.

Lucey's committee had appealed to all operators to shut in the flow beginning at 10 a. m. in an effort to give the latest plan to eliminate over-production a fair trial. Governor Sterling, considering a petition to call the legislature in special session to enact laws to curb flush production in the field, had expressed hope the voluntary plan would succeed. The railroad commission members had said that were hopeful some idea backed by all factions could be hit on that would conserve oil and gas in the area.

Lucey announced his committee would meet with the railroad commission Monday at 10 a. m. to ask that an emergency order embracing the unit plan be issued at once. He said a large delegation of independent operators would attend the session.

Chamber Directors Are Backing Plan

LONGVIEW, June 20. (AP)—East Texas operators hoping to make the Crumfield unit plan of limiting oil production to 300 barrels per twenty acres workable were given the moral support of that section's regional chamber of commerce as they inaugurated the idea at 10 a. m. today.

A majority of the directors of the East Texas Chamber of Commerce in a referendum vote expressed approval of the latest plan to curb production, according to an announcement of Hubert M. Harrison, general manager.

Those sponsoring the 300-barrel limit said indications were encouraging that operators would voluntarily close in their wells for a fair trial of the idea. They said it was too early to compile the results but hoped to

Wortham Masonic Lodge Elects New Officers For Year

WORTHAM, June 20. (AP)—The following officers have been elected by the Longbotham Lodge No. 425, A. F. and M. S. W. B. Lee, worshipful master; Ralph Moore, senior warden; Rev. W. T. Boulware, junior warden; S. E. Cowser, senior deacon; L. A. Roberts, junior deacon; W. L. Garrett, secretary; J. T. Drumwright, treasurer; Wade Smith, S. S.; Walton Stubbs, J. S., and Herman Price, chaplain.

IMPROVEMENTS TO BE MADE ON FIRST NATIONAL BANK

Plans for extensive improvements on the building of the First National Bank of Corsicana are now being prepared by H. G. Blanding and M. T. Horn, Corsicana architects, and will probably be advertised for bids about July 1, according to an announcement made Saturday morning by J. N. Edens, president of the bank.

The improvements are expected to cost between \$15,000 and \$20,000 and will include an elevator, additional vaults and extensions to the bookkeeping department on the second floor, as well as general redecoration of the present rooms.

Local Insurance Man Is Promoted

M. H. DeWitt, local representative of the Jefferson Standard Life Insurance company, has been made district manager and will be in charge of a district composed of Navarro, Hill, Ellis and a part of Dallas county. He will make his headquarters here.

make an accurate check during the day.

The plan was to cut the daily production from approximately 350,000 barrels to not more than 220,000 barrels. The allowable under proration administered by the Texas Railroad commission had been fixed at 160,000 barrels, but production was never less than twice that figure at any time since the order was issued, officials claim.

Governor Sterling was waiting to see if the plan would work before definitely deciding about a special session of the legislature. In event it fails he was expected to convene lawmakers to strengthen proration enforcement powers of the railroad commission.

THIRTEEN BUSINESS HOUSES DESTROYED IN ARP EARLY TODAY

LOSS ESTIMATED AT \$75,000 IN OIL BOOM TOWN FIRE IN EAST TEXAS

TYLER, June 20. (AP)—Fire swept the oil boom town of Arp in this county early today, wiping out thirteen business establishments and causing a loss estimated at \$75,000.

No flames started at 2:45 a. m. in a domino hall when a defective gasoline stove exploded and when they were brought under control, more than six hours later, only a filling station, a cafe, a jewelry store and a barber shop remained in the block.

Most of the buildings had been constructed during the boom which resulted in the town after Guy N. Lewis brought in the Smith county discovery well, several months ago. Arp is located eighteen miles east of Tyler, on the edge of the Joiner oil pool.

No casualties were reported as a result of the fire. Rescuers moved a sick man on a cot from a hotel. One man jumped through the second story of another hotel in escaping, but was not seriously hurt. Many persons rushed from their homes in night clothing, driven out by the smoke.

Fire departments of Troup, Tyler and Henderson were asked to aid in subduing the flames but only the Troup department responded. Lack of water hampered the work of the firemen.

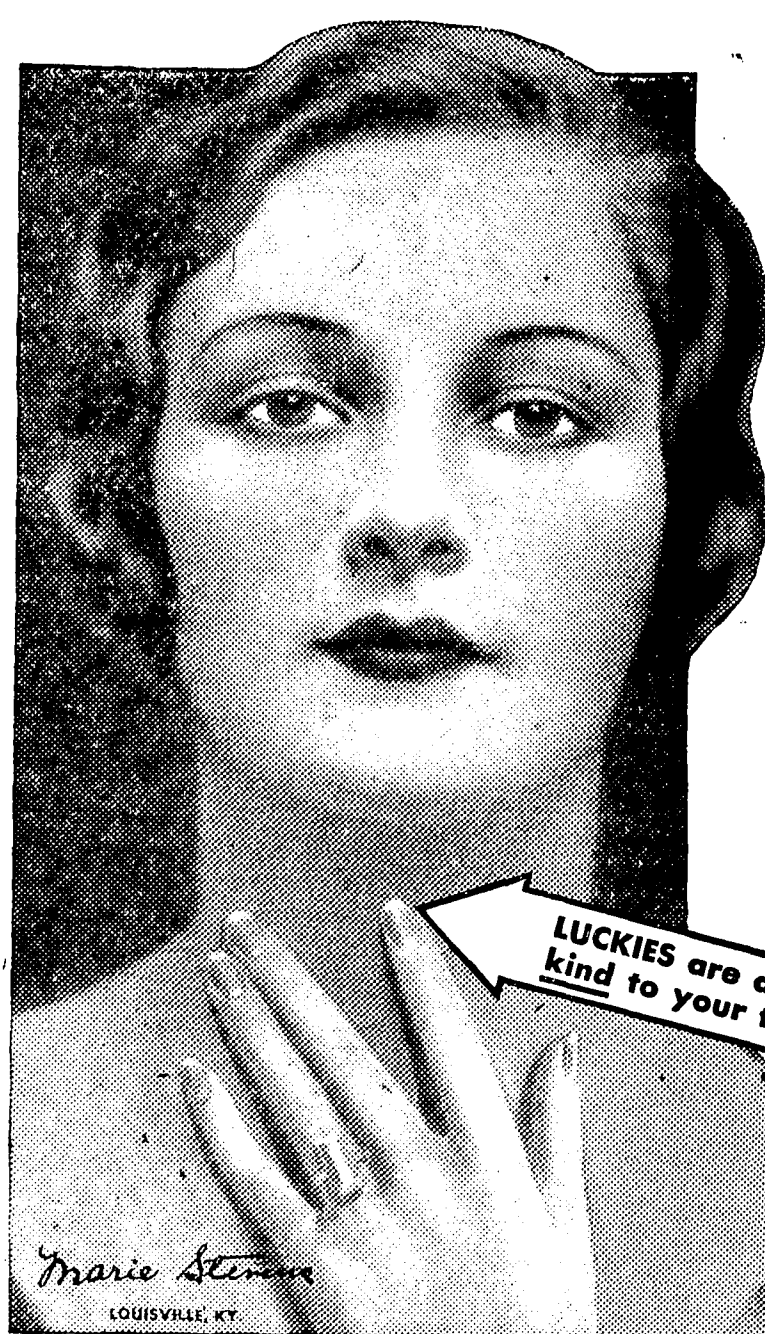

Prominent Fairfield Couple Are Married

FAIRFIELD, June 20. (Spl.)—Dr. H. H. Woolridge and Mrs. Mac J. Browne of this city were married here at 8 o'clock Saturday morning. Rev. H. L. McKissack officiated.

Mr. and Mrs. Woolridge left immediately for a tour of South and Southwest Texas, and will be at home here in about ten days.

Both are well known here. Dr. Woolridge being one of the leading dentists and Mrs. Woolridge served four years as county treasurer.

Consider your Adam's Apple!! Don't Rasp Your Throat With Harsh Irritants

"Reach for a LUCKY instead"

When you visit your physician for your periodic health examination, one of the very first things he asks you to do is to open your mouth wide, and to say "Ah." He is examining the delicate lining of your throat. "Ah!" There is not a man or woman who could even make this simple sound, if in the throat there were no Adam's Apple. For your Adam's Apple is your larynx—the voice box containing your vocal chords. And what a delicate piece of Nature's handiwork the Adam's Apple is. A slight cold—even a tiny particle lodged in the throat—and our voice often grows husky. In acute cases, we may even lose our voice for several days. Don't rasp your throat with harsh irritants—Reach for a LUCKY instead—remember, LUCKY STRIKE is the only cigarette in America that through its exclusive "TOASTING" process expels certain harsh irritants present in all raw tobaccos. These expelled irritants are sold to manufacturers of chemical compounds. They are not present in your LUCKY STRIKE. No wonder 20,679 American physicians have stated LUCKIES to be less irritating. LUCKIES are always kind to your throat. And so we say "Consider your Adam's Apple."

LUCKIES are always
kind to your throat

Restless, could not sleep

"THERE were days when I felt like I could not get my work done. I would get so nervous and 'trembly' I would have to lie down. I was very restless, and could not sleep at night.

My mother advised me to take Cardui, and I certainly am glad she did. It is the first thing that seemed to give me any strength. I felt better after the first bottle. I kept it up and am now feeling fine."—Mrs. T. H. Gibson, Fort Payne, Ala.

DALLAS CASTOFF HURLS NO-HIT, NO-RUN GAME AGAINST BUFFS

BEAUMONT PULLS VICTORY SUNDAY TO REGAIN LEAD

SPUDS TAKE DOUBLE BILL FROM INDIANS; FORT WORTH GAINS

By Bill Parker. (Associated Press Sports Writer.) From out of the cast-off shadows, Ralph Erickson, southpaw moundsman, stepped forth Sunday afternoon to take the acclaim of the Texas league when he turned in a no run and no hit game against Houston to give his Shreveport mates a 2 to 0 win.

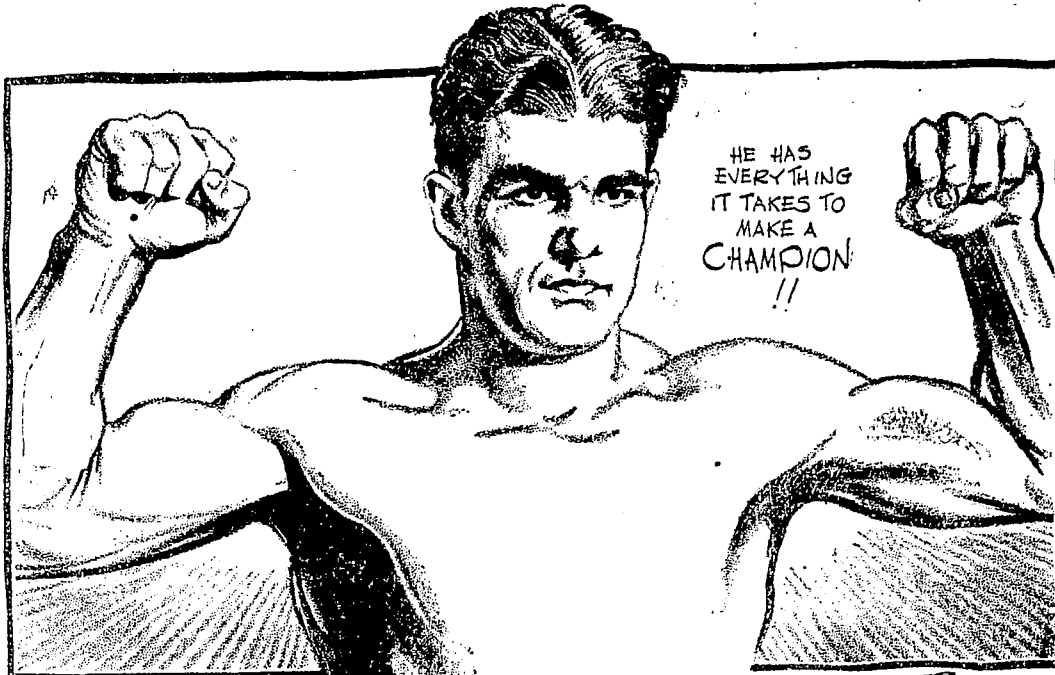

Erickson, who spring-trained with Dallas, could not deliver for the Steers, so he shipped to the Sports. A Shreveport he has been winning the majority of his games, and Sunday afternoon his hitless and runless game pulled the Buffaloes out of first place and allowed Beaumont to take a half game lead. Three Houston batters reached first off Erickson, two on walks and one on Mueller's mis-cue of Medwick's roller.

Beaumont won a wild hitting and loose base running affair from Dallas, 11 to 7. The Exporters knocked Fuhr, Minogue and Wedhe from the mound, and pounded Garland pretty hard. At Wichita Falls, the Spudders swept a double bill from San Antonio. A flock of hits off Lefty Stein in the sixth inning which accounted for five runs, gave the Spudders a 7 to 4 win in the first game. In the nightcap, a circuit wallop by maddy with Ted Guille on base smashed a pitcher's battle between Bob Conney and Roland Flinn, giving the Spudders a 3 to 1 decision.

Fort Worth jumped right into the pennant frying pan with a 2 to 1 verdict over Galveston. The Cats picked up ground on Houston and lost none to Beaumont, and are ready to step to the first if the Exporters of Buffaloes decide to take a short rest.

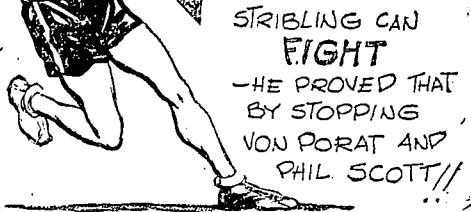

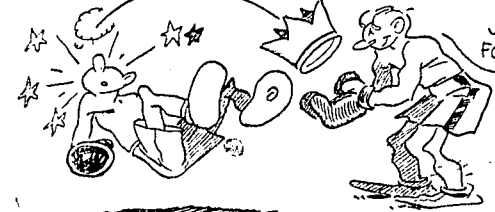

Stripping for Action

YOUNG STRIBLING

THE GEORGIA HEAVYWEIGHT GETS HIS BIG CHANCE WHEN HE MEETS MAX SCHEMLING FOR THE TITLE

STIRBLING KNOCKS SPARRING MATE OUT IN SUNDAY SESSION

TRAINING CAMP HAS ALL ATMOSPHERE OF TRAVELING CIRCUS

GEAUGA LAKE, O., June 22. (P)—It might be a traveling circus, camped for a few weeks on the shores of one of the lakes that dot the Ohio—there's a baby here man and a clown, sideshows, the Ferris wheel, roller coasters, and all the rest. Instead it's a fight camp, BMI Stribling's training camp, probably the strangest that ever housed a challenger for the world's heavyweight crown.

All the showmanship of the "Four Novelty Grams," the acrobatic troupe that was the Stribling family—Pa, Ma, Willie and one to the stature of Bill, is on display on the shores of Geauga Lake 27 miles out of Cleveland, where young Stribling is drilling for his fifteen round title match with Max Schmeling in Cleveland's municipal stadium July 3.

With the roller coasters booming by, firecrackers exploding, hawkers barking, and the comedy ventriloquist training his jokes the handsome Georgian boxed four rounds last night before 2,000 customers and appeared every inch a great fighter. Even though his hands were padded with the conventional training "pillows," eighteen ounce gloves, Stribling whipped one left hook into the body of his first sparring partner, Frank Kitts, and stretched the unfortunate Akron heavyweight helpless on the rug, gasping for breath. It was the first knockout of the training camp for the 26-year-old Southerner who has scored 127 knockouts in 207 fights over a ten year period.

Stribling is lean and brown and ready, weighing about 188 pounds, close to the poundage he hopes to take into the ring against the German champion.

A CHAMPION SHOWS YOU HOW

Pretty Eleanor Holm, youthful New York girl, who holds the national backstroke and 300-yard medley swimming championships and is aiming for more laurels, is presented to you here in the manner in which she outclasses her competitors. Center picture illustrates how beautifully Eleanor dives at the start of a victorious race. Top, left, is a close-up of the aquatic star. Insert, lower right, shows her demonstrating the crawl, the best in her free-style bag of strokes. Lower photo depicts the reliable breast stroke. All pictures were taken at Rye, N. Y., where Eleanor is practicing to defend her titles at the forthcoming National A. A. U. championship meet.

RICHLAND DEFEATED MAGNOLIA OILERS IN GAME HERE SUNDAY

Before a fair-sized crowd Richland Independents defeated the Magnolia Oilers by a score of 4-2, in ten innings here Sunday afternoon. Ruth gave up 11 hits to Wise's 9, but a mistake on a part of Gathright who was coasting at third base for Magnolia gave the game to the Richland Independents.

Thompson, first up in 8th inning, led off with a single. Shook fled out to leftfield. Robinson fled out to rightfield. Rash singled, then Stover hit a home run over the right field fence but as was so overjoyed he proceeded to slap him on the back. Umpire Ruth called Stover out. Stover was credited with a three bagger. This would have won the game as no more scoring was done until the tenth inning.

CARDINALS BETTER STANDING BREAKING EVEN WITH BRAVES

GIANTS LOSE WHEN DE- FENSE GOES TO PIECES IN ELEVENTH FRAME

BY HUGH S. FULLERTON, JR.
(Associated Press Sports Writer.)

Wesley Ferrell, big right handed mound ace of the Cleveland Indians, not only is winning his share of games on the hill, but he is batting well above the .300 mark and often hitting "em when they count.

Yesterday he not only held Washington to seven hits in a duel with Alvin Crowder but he won the game with a home run, his fourth of the season. Then Morgan hit another homer to make the final score 3-1.

Wesley's brother, Rick, who catches for the St. Louis Browns, also hit a homer yesterday. His four bagger aided the Browns in winning their second victory of the day over New York. St. Louis scored five runs in the eighth, despite Babe Ruth's 13th homer, Lou Gehrig's 14th and one by Lazzari to break a nine game losing streak, then they continued their clouting to win the second 8-2.

Makes Athletics Safer.
The defeats of Washington and the Yankees put the Philadelphia Athletics in a safe place. The A's won their fifth straight game, noosing out Chicago 6 to 5, and increasing their lead to four games. Boston won the other American league clash, beating Detroit 7-6.

In the National league St. Louis improved its position with an ever break in a double header with Boston. Frankhouse and Bradt stopped the Cards with five hits to win the first game 6-2. Young Pender Martin came through with a homer behind Grime's good hurling and St. Louis won the second 1-0.

The New York Giants lost a half game when their defense fell apart in the eleventh inning of a battle with Pittsburgh. Two errors enabled the Pirates to overcome the effects of Grantham's misplays earlier in the game and win 5-4. Philadelphia kept even terms in its private race with Pittsburgh for sixth place by beating Cincinnati 7 to 1.

Brooklyn continued its stern chase of the leaders by beating Chicago, 7 to 6.

**FOUR CORSICANA
NETTERS REGISTER
FOR ANNUAL PLAY**

Four Corsicana netters have registered in the third annual Y. M. C. A. city tennis tournament, which will get under way at the city park courts next Monday, according to an announcement today by C. F. Broughton, physical director.

Those paying their entrance fees include Walter Lewis, Alvin Miller, Hubert Brazelton and M. S. Cook.

Friday noon has been set as the deadline for the three divisions of the tournament, which include seniors, juniors and women. Wednesday was set as the last day of registration for the men's and women's, but due to the slowness of registration, the time has been extended. Drawings for places will be in the Y. M. C. A. lobby Friday night. Suitable awards will be given winners in the various divisions. An entrance fee of \$1. is required, and will entitle the player to participate in both singles and doubles.

According to Physical Director Broughton, players entered last year's tourney.

**WAXAHACHIE WINS
OVER CORSICANA IN
G. T. GOLF LEAGUE**

An invasion of Waxahachie by the Corsicana entry in the Central Texas Golf League resulted disastrously for the visitors when Waxahachie walked away with the long end of an 18-10 score Sunday afternoon.

As a result of the one-sided victory, Waxahachie became a decided favorite to win the title in the inter-city league, Corsicana's greatest hope being in Hillsboro's defeating the Ellis county entry and little hope was held for that.

The Corsicana team was slightly handicapped by the absence of a number of their regular members including the Hollaway, Ed M. Polk, J. N. Garitty, H. R. Stroube.

Americans Try For Places On Ryder Cup Team Scioto Course

SCIOTO CLUB, COLUMBUS, O., June 22.—(P)—Sir Walter Hagen's three ring circus got under way today with the first qualifying round to fill four positions on the American Ryder cup team which later this week will tangle with Great Britain's best for the professional golf championship of the world.

All of Sir Walter's actors arrived yesterday and, despite an intense heat, toured the Scioto course in preparation for today's matches.

Captain Charles Whitcombe and his British team took gallery seats today as they will tomorrow while 13 Americans struggle for berths on the team. The rivals for the four positions are Charles Hiltgen, Alvin Crowder, Detroit, Willie Klein, New York; Denny Shute, Cleveland; Joe Turnesa, New York; Frank Walsh, Chicago, and Craig Wood, Buffalo.

These 13 will play 36 holes today and a similar number Tuesday.

On the team now are Hagen, Captain; Gene Sarazen, Johnny Farrell, Leo Diegel, Horton Smith and Al Espinosa.

**STANTON RETAINS
BATTING LEAD IN
TEXAS LOOP RACE**

DALLAS, June 21.—(P)—Buck Stanton, Wichita Falls' first baseman, continues to head the Texas League batting parade. Stanton, the first to reach the century in base hits this year, is batting .377 in 723 times at the plate. Stanton is 22 points superior to his closest rival, the leading hitters in a hundred or more times at bat: Stanton, Wichita Falls, 377; Russ Wichita Falls, 355; Radcliff, Shreveport, 354; Gorman, Beaumont, 344; Krauss, Fort Worth, 340; Taylor, Beaumont, 338; Peel, Houston, 332; Brown, Fort Worth, 322; Kallay, Galveston, 316.

Other Texas League pace setters: Runs—White, Beaumont, 52; Schube, Beaumont, and Moore, Fort Worth, 48.

Hits—Stanton, Wichita Falls, 103; Brown, Fort Worth, 86. Doubles—Stanton, Wichita Falls, 27; Medwick, Houston, 22; Triples—Stanton, 10; Gorman, Beaumont, 10; Garms, Wichita Falls, Stanton, Wichita Falls and Badgro, Wichita Falls, 8 each.

Home Runs—Gullick, Wichita Falls, 10; Shreveport, 10; Radcliff, Shreveport and Easterling, Beaumont, 6 each.

Runs Batted In—Gullick, Wichita Falls, 51; Stanton, Wichita Falls, 49.

Leading Pitcher—Dean of Houston, 10 wins.

Stolen Bases—White, Beaumont, 20; Plaskamp, San Antonio, 17; Strickland, Galveston, Houston 93; Dean, Houston, 83.

**OFFICIALS OF BIG
NEW YORK BANK ARE
FOUND BE GUILTY**

NEW YORK, June 20.—(P)—Three of the four officials of the closed Bank of United States, on trial for 12 weeks on charges of misapplying funds, were convicted today by a county jury. The jury disagreed on Henry W. Pollock, head of the bank's legal department.

Bernard K. Marcus, president of the bank, was acquitted. His son, Herbert Singer, a clerk, was convicted.

The four were specifically charged with misapplying the funds of the Municipal Safe Deposit Company, a subsidiary of the bank, by using \$8,000,000 of its money in another transaction.

PRESIDENT HOLDS CONFERENCE WITH POLITICAL LEADERS

BELIEVED ADMINISTRATION PLANS ACTION IN EURO- PEAN FINANCES

WASHINGTON, June 19.—(P)—President Hoover is showing a vital interest in the involved European financial situation and as a result of conversations today there is a belief in Washington that some action by the administration is imminent.

The president called to the White House today three members of the senate and Representative Tilson of Connecticut, republican leader of the house.

Immediately upon his return last night from the middle of the Atlantic, Mr. Hoover held a long conference with Secretary Stimson. Yesterday in London Secretary Mellon held a series of conferences with Prime Minister MacDonald and other British officials who recently have heard the plea of Germany's officials for a cut in the German reparations bill.

Chairman Smoot of the senate finance committee is headed for an unexpected visit to Washington. Senator Reed, republican of Pennsylvania, is expected to arrive at breakfast today together with Tilson.

Later the president called to the White House Senator Walsh of Montana, a democratic member of the foreign relations committee, and Senator Glass of Virginia, a former democratic secretary of the treasury. There was a rumor at the capital that Senator Watson of Indiana, the republican leader, might reach the city over the week-end.

The president's conversations with the congressional leaders have led to the belief that some revision of the world war debts or perhaps a moratorium on them is contemplated as a means of helping avoid the prospective financial crisis in Europe.

Congressional approval would be required of any change in the debt status.

European nations all met their debt payments due this month and no additional payments are due the United States until next December 15. For that reason any government action might be in another direction.

The White House callers flatly refused to discuss their visit but they agreed that the government is vitally interested in the European financial crisis. They also pointed out that this government's economic situation is involved in the world situation and that a collapse in Europe might have a severe reaction in this country.

**STERLING HOPES
CRANFILL PLAN BE
MADE SUCCESSFUL**

AUSTIN, June 19.—(P)—Gov. Ross S. Sterling today expressed hope that the Cranfill plan for reducing oil production in East Texas would be given a fair trial. The plan will be instituted tomorrow.

"I have been informed by the arbitration committee appointed by the Tyler mass meeting and the East Texas advisory committee that the East Texas operators contemplate closing in their wells to 300 barrels per day beginning tomorrow," the governor said.

"If this is done, it certainly will have a wholesome effect upon the entire oil industry. I feel that everyone should cooperate with them in the efforts to conserve this great natural resource and hope that this plan will be given a fair trial."

Governor Sterling made his statement after a conference with Carl Estes of Tyler, one of the leading sponsors of the plan. Estes appealed to the governor to give the plan a reasonable trial before calling a special session of the legislature. He expressed confidence the plan would be effective.

Estes planned to ask members of the railroad commission to issue an emergency order in conformity with the plan.

**MEMBERS SPECIAL
PROBE COMMITTEE
SEEK GRAND JURY**

AUSTIN, June 19.—(P)—Two members of the senate investigating possible illegal fee claims and Grady Sturgeon, assistant attorney general, today asked district judges here to call a grand jury.

The two members of the committee who asked for the grand jurors were Senator J. W. E. H. Beck of DeKalb, chairman, and Senator Carl Haidin of Stephenville.

Mrs. Lex Smith Is Named Head Health Council Freestone

FAIRFIELD, June 20.—(Spl.)—Mrs. Lex Smith of Teague was elected president of the Freestone County Health Council at the regular monthly meeting of the council in the office of the health nurse, in the courthouse in Fairfield. Mrs. P. O. French was elected first vice president, Mrs. G. F. Burnhill, third vice president, Mrs. A. J. McKinney, Wortham; corresponding secretary and treasurer, E. E. Bowen, Teague; recording secretary and publicity chairman, Mrs. George Stubbs, Wortham.

Freestone chairmen are No. 1, Mrs. P. O. French, Fairfield; No. 2, Mrs. Florence Roberts, Streetman; No. 3, Mrs. J. R. Bell, Teague; No. 4, Mrs. Oscar Johnson, Dew.

**SPECIAL SESSION
STILL OBJECTIVE
ONE OIL FACTION**

DALLAS, June 19.—(P)—The Texas oil emergency committee, members of which have asserted that the Cranfill plan for production of oil production in the East Texas field is impracticable, expects to continue its efforts to obtain a special session of the legislature to "any legal and helping avoid the prospective financial crisis in Europe."

Todd also is a member of the East Texas production advisory committee and attended a meeting called yesterday at Longview by the East Texas arbitration committee to consider the Cranfill plan.

In a written statement, he declared that although it was the emergency committee's intention to proceed with efforts to obtain a special session, at the same time it would agree to "any legal and helping avoid the prospective financial crisis in Europe."

"The producers who met yesterday at Longview agreed to support the Cranfill plan as revised," Todd explained, "provided the railroad commission found it legal and was willing to issue an order putting it into effect, with the understanding of course that previous cooperation could be had by Saturday."

Saturday was the date agreed upon, under the Cranfill plan, for operators to voluntarily shut in production to 300 barrels daily per 20-acre unit.

"It is believed by many," Todd said, "that such an order by the railroad commission would not be approved by the attorney general and if it were not so approved, would not be put into effect by the railroad commission for fear that it might conflict with the anti-trust status."

"The meeting yesterday did not provide for any limitation on production and without such limitation, better prices are not to be expected."

"Some major operators present made it clear that they were not making any agreements with any individuals or companies and that they would voluntarily shut in production upon the issuance of an order by the railroad commission."

He added that "the Texas oil emergency committee wishes to make it clear that while it is agreeing and will continue to agree to any legal and valid order of the railroad commission as an emergency measure, it is its intention to proceed with effort to secure a special session of the legislature to submit a law that will make railroad commission orders effective."

Ice Cream Supper
There will be an ice cream supper at Roane Methodist church, Friday night, June 25th, in honor of the church. Everybody invited.

**A. B. HUTSON
of Roane, Texas**

**Popular Dealer In
McNess Products**

**Wins First Prize in
National Contest**

We are sure that the people of Navarro county will be glad to learn of the splendid record being made by their McNess dealer A. B. Hutson. During a recent contest he led the whole organization of McNess dealers and finished first Grand Prize Winner. In another contest Mr. Hutson won second prize for selling the second largest amount of McNess Champion Vanilla.

Considering that thousands of McNess dealers from every State were entered in these contests, Mr. Hutson has a right to feel proud of what he has accomplished.

He is a valued member of the big McNess Dealer Organization and any man who builds and holds a business such as Mr. Hutson has done must be a man of sterling character and bear a good reputation.

AMELIA E. PUTNAM TOLD HER JUDGMENT POOR AND CARELESS

RECENT ACCIDENT IN AUTO- GIRO BROUGHT GROUND- ING RECOMMENDATION

WASHINGTON, June 19.—(P)—The commerce department announced today that Amelia Earhart Putnam had been reprimanded for carelessness and poor judgment in handling her automobile when it crashed at Abilene, Texas, last week.

Mrs. Putnam, who was making a transcontinental flight is reported to have struck a flood light in taking off from the airport at Abilene, turned her machine over and struck an automobile. At the time, she said she had misjudged her height.

Reports reaching the department recently have been that the inspector on the field at the time had recommended that she be grounded for 90 days.

C. G. Ludwig, in charge of the operations section of the aviation branch, today telegraphed R. W. Delaney, inspector at Dallas for report. He telegraphed a recommendation that Mrs. Putnam be reprimanded.

It was announced that a letter was going forward to Mrs. Putnam today officially reprimanding her.

Used Her Best Judgment.
TULSA, Okla., June 19.—(P)—An assertion she had exercised her "best judgment" in landing her autogiro at Abilene, Texas, was Amelia Earhart Putnam's reply here today to the reprimand given her by the department of commerce for "carelessness, and poor judgment" in the handling of her craft.

She said she would telegraph the department for further details of the charges.

"The crowd was desirous of seeing the autogiro closely," she related, "and I was taking off close to the crowd on that account."

"I had gained some height when suddenly my giro began losing altitude. I brought it down in the only open space available to prevent hitting any cars or hurting any people. It is true that one of the motors struck a car but I don't believe it did any serious damage."

She said she was not aware that she struck a floodlight in taking off, as was reported to the commerce department.

**Smith-Jackson No. 1
Making Slow Progress
In Austin Chalk Now**

FAIRFIELD, June 20.—(Spl.)—There is no special report on E. L. Smith, Jackson No. 1 well, northwest of Fairfield, other than the bit is going down slowly in the Austin chalk at about 3100 feet. Some delay has been experienced the first few days.

FORMER OFFICERS OF TWO PANHANDLE COUNTIES FACE CONSPIRACY INDICTMENTS

AMARILLO, June 20.—(P)—Thirty-seven of the 48 Potter county and Gray county residents indicted yesterday by the federal grand jury on charges of conspiracy to violate the national prohibition laws were expected to report to the United States commissioner's office here today to make bond.

The new indictments involved former officers of both counties and followed closely the indictments of 23 Potter county residents three weeks ago, on similar charges, bringing the total to 71 indicted during the spring term of federal court. Involved in the new indictments were 12 from Amarillo, 15 from Le For and 21 from Pampa.

Eleven of the 48 had made bond today or already were under bond in other cases or in the penitentiary. Those making bond included William Leo Sparks, former Potter county attorney, who already was under bond on an indictment returned three weeks ago and his former assistant, W. A. (Bill) Culwell. They made bond of \$2,500 each.

John H. Cline and Robert Walls, former deputy sheriffs at Le For, Gray county, headed the list of 15 from that oil field town. They, with Calvin H. White, were under old bonds of \$2,000 each.

Weldon Wilson, former officer at Pampa, and Herman Washendorf, also of Pampa, had made bonds.

Roy Albritton, under \$20,000 bond in a former case, Arthur H. Cornett, under \$2,500 bond, Wil-

TRAFFIC COUNT IS BEING MADE ALONG LOCAL HIGHWAYS

A highway traffic count being made during the past few days by representatives of the State highway department on all roads leading out of Corsicana is a part of a statewide campaign according to information received Monday.

The counters are attempting to determine the number of cars, number of people, and approximate point of origin, in their tabulations on the various roads. These figures will then be used by the State highway department in determining the relative importance of the various roads, the urgency of the completion of newly located highways, and also the proper scale for maintenance appropriations.

The count will probably be continued for several days.

**Navarro Men Accused
Of False Swearing in
Securing Of License**

FAIRFIELD, June 20.—(Spl.)—Two Navarro county men were each placed under \$1000 bond in Corsicana Monday on charges of false swearing. The charges grew out of an affidavit stating that a girl was over 18 years of age when the two men recently secured license in Fairfield for the girl and one of the accused men to marry.

CORSICANA, TEX., JUNE 23, 1931

RURAL EDUCATION.

Educators and representatives of rural interest and regions will meet in Los Angeles in July at the call of the United States commissioner of education to discuss the condition of rural schools and their prospects and programs.

One of the purposes of this conference is the drafting of a program of rural education which will lessen the cultural gap between the rural and the urban school by removing some of the overemphasis on vocational studies in the country school.

It is unfortunate that the problems of the country school must be considered separate and apart from those of the city school. The country and city boys and girls should be educated in the same classroom, and everything that tends to emphasize the difference between urban and rural requirements and interests widens the social, mental and economic gap separating rural and urban America. One of the proper functions of the public school system is the unification of the American mind and the civilization which represents it. It can be accomplished only if the recognized purpose of the schools is broad enough and big enough to cover a great variety of local conditions and an equal variety of educational methods.

The time will come when the controversies, distrust and lack of sympathy which divide country and city will disappear in the merged or consolidated school.

HECTIC TIME HEAD.

Indications are that the Congress which assembles in December will have rather a hectic time among the divergent and contradictory views of the Executive branches of the government as to the proper method of handling the deficit, which today amounts practically a billion dollars.

The insurgent wing of the Republican Senators, if Brookhart of Iowa and Couzens of Michigan are to be accepted as their spokesmen, apparently intend to demand that the national revenue be increased by levying higher taxes on the big incomes; probably asking for progressive increases in proportion to the magnitude of those incomes. Against any such procedure, Secretary Mellon, who is always assumed to speak for the administration on such matters, has invariably set his face.

A democratic view, as expressed by Senator Harrison of Mississippi, is that the people of the United States are today in no shape to stand an increase in taxes. His view is that the Treasury should take care of the deficit by the usual process of issuing short-term obligations, which he argues it could very readily do if the procedure laid down by Congress for the retirement of the national debt is observed. He points out that there would be no deficit had the Treasury contented itself with the statutory provisions for debt retirement. Instead of confining the sinking fund to approximately \$400,000 a year which is set aside for this purpose, the Treasury has in the past utilized whatever surplus it had to further reduce the national debt, with the result that we are now seven years ahead of the arranged program.

Where the standpat Republicans will go as being the President's declaration against any increase in taxes and the Treasury's indicated demand

JUST FOLKS

SILENT.
I did not argue with the man.
It seemed a waste of words.
He gave to chance the wondrous
plan
That gave sweet song to the
birds.

He gave to force the wisdom wise
That shaped the honey bee.
And made the useful butterflies
So beautiful to see.

As we walked 'neath splendid
trees
Which cast a friendly shade,
He said: "Such miracles as these
By accident were made."

Too well I know what accident
And chance and force disclose
To this blind fury could invent
The beauty of a rose.

I let him talk and answered not.
I merely thought it odd
That he could view a garden plot
And not believe in God.

THE SOUTH'S DEVELOPMENT IN 1930.

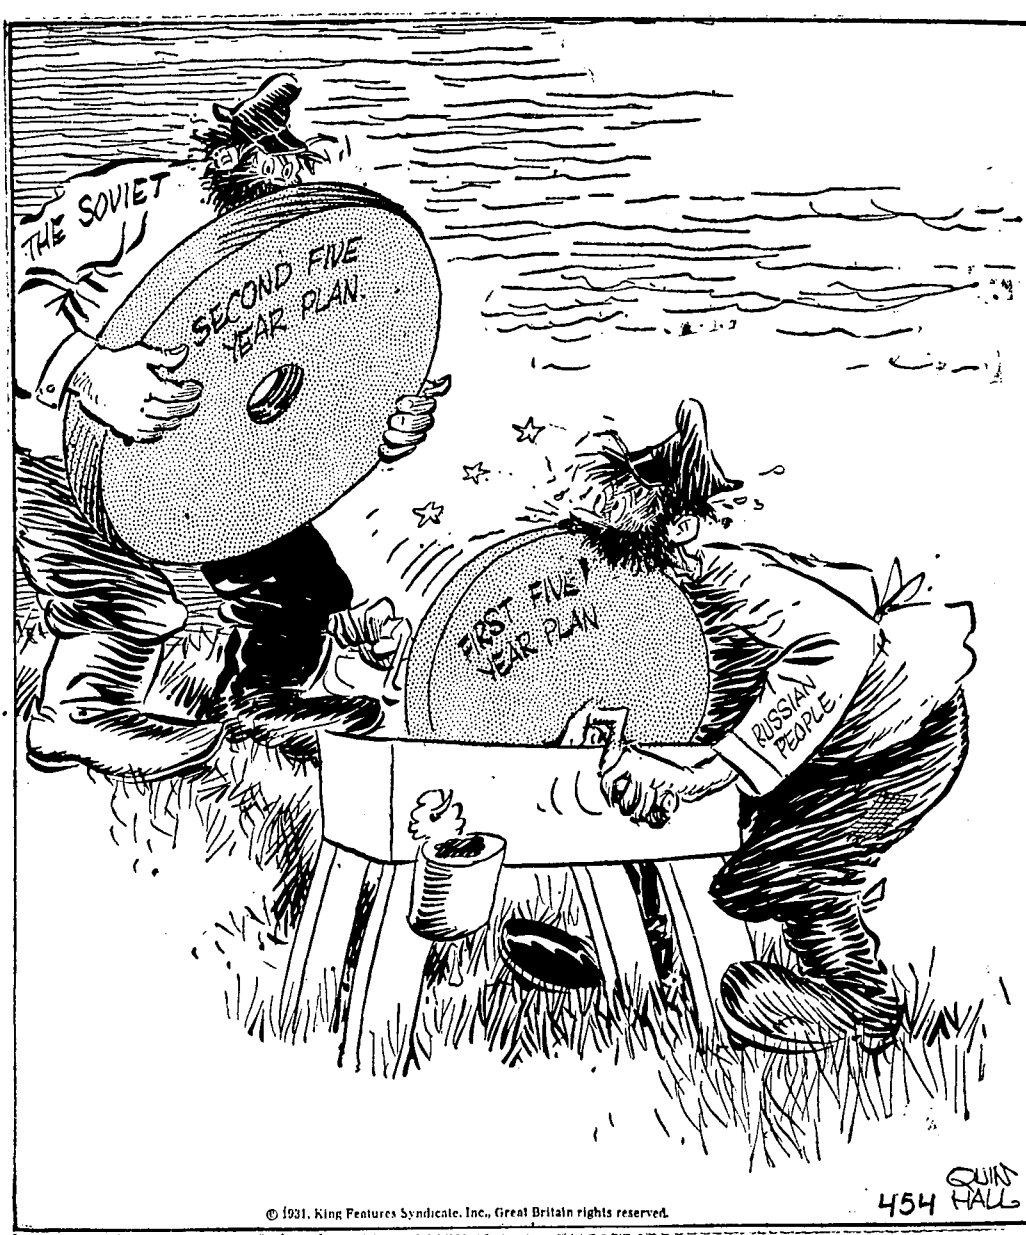

Sound economic development, versatility in industry, diversification and mechanization in agriculture and valuable achievements by chemistry and research are the outstanding features of the South's activity as reviewed in the 1931 edition of the Blue Book of Southern Progress, published by the Manufacturers Record, Baltimore, Md. In presenting these annual summaries, says the Blue Book, comparisons are not made with any thought of disparaging the developments of other sections, but to emphasize the South's place in the Nation's industry and trade and its progress over a term of years.

Through general housecleaning and elimination of wasteful methods, the Blue Book continues, the South has attained unprecedented efficiency and instituted low-cost production. Deadwood in industry has been replaced by new methods and modern equipment; marketing methods have been refined, and new products and new processes

for that very thing is an interesting question. The general surmise is, however, that before December either the President will take heed of the Mellon philosophy or that the Treasury officials will explain that the Mills and Mellon speeches were merely academic discussions of the problem. The latter alternative appears the more probable. With an election coming on, political expediency is more likely to guide the policy of the administration than the Mellon philosophy. No administration relishes the idea of going into a campaign with an increase in taxes. This circumstance suggests, according to most of the skilled political observers in Washington, that the Treasury will tide over the deficit, probably with the expedient of short-term securities, until after the 1932 election. If, as now seems probable, the Congress which will be chosen at that election is Democratic, the Hoover administration might then be able to point with pride to the circumstance that it had avoided increasing the tax burden during the period of depression and would challenge the incoming Democrats to match that record. However, as close a friend to the President as Mark Sullivan holds a tax increase by the next Congress as very likely. He argues, as is perhaps natural in a writer whose loyalty to the President is proof against anything the President might do, that Congress will make such large appropriations that, despite the president's desire, ad-pelled taxes will be compelled.

This suggests the usual alibi of the Executive that Congress is the wicked partner in government expenditures. The validity of such an argument is questionable at least, for, as Representative Oliver of the House Committee on debt retirement, recently presented there has not been a budget since the budget system was adopted that was not cut down materially by Congress. Aggregate appropriations made by Congress have been \$413,000,000 less than the budget estimate submitted and approved by the White House. In the matter of the present administration, Congress has appropriated \$30,000,000 less than the President asked for the conduct of the government.

There'll Be Nothing Left

have been devised and put into profitable operation.

The year 1930 set a new high record in the amount of money invested in Southern construction and engineering projects, the Blue Book discloses. This record is pronounced the more remarkable in view of a decline of 20 to 30 per cent in construction for the country as a whole, in comparison with 1929. Construction contracts awarded in the 16 Southern States in 1930 aggregated \$921,000,000, or \$140,000,000 higher than the previous high mark, in 1927.

Last year, the building of underground transportation systems to carry natural gas, crude oil and gasoline held the center of the stage, the Blue Book adds. Careful estimates indicate that over \$200,000,000 was expended for such purposes. Industrial and domestic adoption of natural gas has been a major factor in the year's progress.

In the mechanization of agriculture, new machinery was introduced and rural power lines were extended in many Southern States. Recent discoveries are making farm products of greater value as direct raw materials or by-products for the manufacture of finished goods, and the farm and the factory thus are brought into closer touch.

"Continued expansion of the South's iron and steel industry was made in 1930," it is stated, including expenditures of \$20,000,000 by the Gulf States Steel Company for new units at Alabama City and Gadsden, Ala.; an \$8,000,000 program started by the Tennessee Coal, Iron & Railroad Company, in the Birmingham district; \$10,000,000 in improvements by the Weirton Steel Company, W. Va., and so on.

In keeping with the South's demand for building materials of all kinds, the cement industry has developed greatly, while the lumber industry has adopted new features, such as millwork and the cutting of lumber to stock sizes. Also, there have been extensive developments in lumber-treating methods.

Industrial concerns have expanded their operations far beyond their original aims, largely through research. Sugarcane refuse, spent pine chips and wheat straw are utilized in building and insulating materials; cellulose is produced from rice hulls and cotton linters, and building materials and chemical products are derived from sawmill waste. Research progresses results in the application of sugar in wood preservatives, textile finishing and manufacturing of adhesives. Sugar is thought to

merit investigation as a basic raw material for use in the chemical industry, and salt, another Southern product, furnishes raw materials for many chemical industries. Other products of research cited by the Blue Book, are the manufacture of white paper from slash pine; a special peanut flour and more than 38 chemical uses to which natural gas can be put. A new process has been developed in the South for the manufacture of commercial decolorizing carbon from the residue of cottonseed hulls after xylene is removed, xylene itself being one of the chemical products developed a year or two ago from cottonseed hulls.

Besides the development of waste cottonseed into vegetable oil and other by-products for the chemical industry, the Blue Book says that new uses are being found for cotton textiles. Cotton has the highest cellulose content of any plant, and this is a basic raw material in the fabrication of rayon, art leathers, lacquers and plastics, celluloid and cellophane. The possibility of the use of cotton for the manufacture of paper approaches a strong degree of probability. Belief that cotton will be grown for its cellulose content and not for its lint value is another possibility. Under a new system anticipated, the Blue Book adds, cotton may be grown and harvested much like wheat and hay, and every part of the cotton plant be used, except the roots.

Development of Southern power was carried on in 1930 in great volume and electric production by public utilities ran to 21,082,000,000 kilowatt hours, within 2-3 per cent of the peak reached in 1929. For some time past, the Blue Book comments, the South has been expanding its public utility power facilities at almost double the rate of growth in the rest of the country.

Tremendous developments in the aeronautics industries, in and beyond commercial and private aviation, also are described. In 1930, the South again led the country in railroad building, and made steady and substantial progress in waterways and port development.

Information on the South, in scores of phases, is given in the Blue Book in compact, authoritative tables, covering details on area, population, individual agricultural items, individual manufacturing subjects and products, power, transportation, construction, education, banking and finance, insurance, mining, fisheries and numerous other features.

BLIND MEN.

In the "Buddhist Philosophy of Life" you will find this sentence:

"There was a man born blind and he said: 'I do not believe in the world of light and color. There is no sun, no moon, no stars. No one has ever seen these things.'"

All about us there are men who say: There is no such thing as love. There is no such thing as loyalty. There is no such thing as unselfishness. There is no such thing as virtue. All these things are but dreams and visions.

Why do they say these things? You think that perhaps they do not dream what they say. You think they are just talking for effect or to raise an argument.

The case is sadder than that. They give voice to this belief because they are men who are blind. Perhaps they were born as blind men and never had a decent chance to get their eyes open. Perhaps they have become blind through habits of thought and action.

At any rate they are like the man in the Buddhist book. They are blind and they say that there is no love, no loyalty, no virtue.

They have never experienced the finer emotions of life in their own darkened lives. They have not had these emotions often enough and strong enough to believe in their reality.

You who read this may never look out of your window in the night. Nevertheless the stars are very beautiful. Be sure of that.

The next time you hear a man or a woman deny life's beauties, its spiritual achievements, its satisfactions, its deep worthwhile experiences, do not be misled.

Life is all right. Folks, for the most part, are all right. But you are talking to a blind man.

Have a look at yourself, too, and your own emotions and conclusions. When you are discouraged, when you find yourself cynical, when you doubt the eternal verities, make sure that you are not becoming a blind man.

As everyone knows, gunpowder originated in China, and a study of her wars suggests she possibly invented the headache powder as well, or should have.

If happiness is man's chief aim, that is most wise which gives most happiness. Does agnosticism ever make anybody happy?

One way of getting what you want is by wanting nothing.

Falling in love and in debt are about the same.

NEW COURT RULING
WILL PROVE COSTLY
TO RURAL CHILDREN

A hardship will be worked on a great many rural school children by the recent ruling of the Supreme Court, Dan D. Hanks, Navarro county school superintendent, said Friday after the receipt of a new ruling from S. M. W. Morris, state superintendent, relative to transferring of students from rural districts to others.

Under the new ruling handed down, students over seventeen years of age cannot be transferred but will have to pay tuition instead of attending school until twenty-one years of age as has been the case since 1913.

In the communication from State Superintendent Morris, Mr. Hanks' was advised that the Supreme Court holds no one can receive the benefits of free high school tuition unless the student has been enumerated in the scholastic census and is subject to be transferred.

Those students who are excluded from the free high school tuition include scholastics who reside in the rural school district but were omitted from the scholastic census last March; scholastics of high school grade who have become residents of a rural, non-high school district after the closing of the census, unless the student is enumerated in the county or in an adjoining district of a contiguous county and has been transferred to the new district; pupils over 17 years of age will not be subject to transfer and will not be allowed to attend school, even in his home district without paying tuition; and pupils enumerated in one county who desire to attend high school in another county unless the student desires to be transferred to a contiguous high school district in an adjoining county.

Social Items of
Interest to Wortham
And Corsicana Folk

WORTHAM, June 19.—(Sp.)—Marvin Willis Jr., of Lancaster, and Morris Chapman of Winters, visited friends in Wortham this week.

Mrs. Ralph Calame, Misses Grace Hackney, Joyce Lee and Maurine Riley were in Waco, under the Rotarians of Mexico, where all were guests of the Waco Rotarians. The Wortham representatives attended the program at the luncheon time.

Mrs. Johnnie Schultz visited in Richmond Wednesday.

Mr. and Mrs. John David Burleson were in Corsicana, visitors Tuesday, guests of Dr. and Mrs. R. S. Sneed. They also attended the garden party given by Mesdames Beauford Jester and W. R. Sneed, at the home of Mrs. Sneed.

Mr. and Mrs. Henry Meador and children, Henry, Jr. and Lillie Roark, left today for a visit to Dilley. They will visit San Antonio and El Paso, and other cities, including Laredo and Corpus Christi.

Richard Bates of Brownsville is in Wortham visiting friends and relatives. He is a guest of his brother, Mr. and Mrs. Joe Bates. After a few days visit in Wortham, Mr. and Mrs. Bates will accompany their brother, Mr. Fort Worth for a visit with their parents, and will visit relatives in Oklahoma before returning home.

Mrs. J. P. Stubbs and Mrs. K. W. Sneed and Henry Meador, Jr., were in Corsicana Tuesday.

Miss Zeinor Moss, who has been teaching in Wichita Falls schools, returned to Wortham Monday, a guest of Mrs. Sneed with her parents, Mr. and Mrs. T. Moss.

Mr. and Mrs. W. H. Dodge and little son, Billie, of Covington, La., and Miss Fann, daughter of Wortham, returned from a visit with their sister, Mr. and Mrs. Carl Kumke, of Corsicana.

Mrs. L. Kirgan of Fairfield is in Wortham, the guest of her daughter, Mr. and Mrs. George Stubbs.

Dr. K. W. Sneed and Ernest Strange made a business trip to Corsicana.

Mrs. J. M. C. Strange, Mesdames Jub Calame and J. J. Stubbs visited relatives and friends in Waco.

Mrs. John Moore was in Mexico yesterday attending the meeting of the Bi-State Teachers' Music Association.

Mrs. K. W. Sneed and niece, Lillie Roark, were visitors in Kirwin Wednesday, guests of Mr. and Mrs. Alford Carter, and Mrs. Saline May and daughter, Miss Sarah May.

Mrs. J. A. Silverberg are the parents of a fine baby boy born to them late Thursday afternoon at the P. & S. Hospital. Both the mother and baby are doing nicely.

Homier Garrison received medical attention at the P. & S. Hospital today.

Mrs. Gabe Goldberg and baby boy were able to be removed from the P. & S. Hospital Thursday morning.

Mr. Matson was an extensive land-owner, ginmer, cotton mill and banker.

Mr. Matson was noted for his civic and other work here and was prominent in all affairs of the community. He reared and educated a number of relatives. Surviving are his wife and two step-children.

Hubbard Masonic
Bodies Installed
Officers Thursday

HUBBARD, June 19.—The following officers will be installed in a joint ceremony at the Masonic temple Thursday night, June 25:

Hubbard City Council, No. 97, R. and S. M.:
A. M. Huddleston, T. I. M.; D. E. Waddell, R. I. D. M.; J. G. Scott, I. P. C.; J. F. Huddleston, treasurer; G. A. Johnson, recorder; W. M. Moore, C. of G. J. Nolan, Murphy, C. of Council; R. C. Haralson, steward; T. M. Bounds, sentinel.

Hubbard City Chapter No. 156, R. A. M.:
W. R. Bounds, M. E. H. P.; J. Hal Bowman, E. K.; L. L. Wilkes, E. S.; A. M. Huddleston, treasurer; G. A. Johnson, secretary; D. E. Waddell, C. H. W. E. Webb, P. S.; T. B. Prince, R. A. C.; A. C. P. Pool, M. 3d; W. W. Wolfe, M. 2nd; J. Nolan Murphy, M. 1st; T. M. Bounds, guard.

Hubbard City Lodge No. 530, A. F. and A. M.:
C. W. Pitts, W. M.; C. T. Martin, S. W.; J. C. Boone, J. W.; J. G. Scott, treasurer; G. A. Johnson, secretary; D. E. Waddell, chaplain; J. R. Hight, S. D.; Henry Bailey, J. D.; P. H. Woodard, J. S.; W. G. Hervey, S. S.; T. M. Bounds, tiler.

In the address of welcome at the fair hall, W. V. Harrison, superintendent of the Frost public schools, told the visitors that Frost was forgetting the unpleasantness which occurred on May 6, 1930, because that was not important; but what was more important was one achievement Thursday night, when Frost had learned by his community what had happened since that time, and they were celebrating and that was that it was in his hands but what was to be found in its heart and head; not judged by its material possessions but its ability to do and feel.

The new lodge quarters are located on the second floor of the building at the north-east corner of Garitty and Front streets, the first floor being occupied by the First National Bank. The hall is built of light buff face brick and woodwork, and ample windows for light and ventilation. The lodge room proper is simply but magnificently furnished.

Hubbard City Chapter No. 156, R. A. M., has been made to have an almost 100 per cent attendance of the membership of Hubbard Lodge for the occasion and many of the members came from distances to attend the celebration. Visitors were present from Waco, Hubbard, Dawson, Corsicana, Kerens, Wortham, Dallas, Blooming Grove, Beck, Ed Shappard, Euureka and other points.

FROST MASONIC
LODGE DEDICATES
ITS NEW TEMPLE

FROST, June 19.—(By Staff Correspondent)—A combined dedication, homecoming and jubilee was staged Thursday night by Halbert Lodge, No. 641, A. F. & A. M., celebrating the completion and occupancy of their new hall, with between 400 and 500 Masons and citizens in attendance.

At 7 o'clock several hundred men were guests of Halbert Lodge at a barbecue supper in the fair building, recently rebuilt. John C. Beck, president of the First National Bank and worshipful master of the lodge, presided at the meeting. Remarks were made by the visiting lodges and past grand masters Hiram F. Lively and Wilbur F. Keith of Dallas, and Judge J. G. Calcutt, district deputy grand master, as the principal speakers. Numerous congratulations and talks were made by representatives of the Frost lodge and visitors.

In the address of welcome at the fair hall, W. V. Harrison, superintendent of the Frost public schools, told the visitors that Frost was forgetting the unpleasantness which occurred on May 6, 1930, because that was not important; but what was more important was one achievement Thursday night, when Frost had learned by his community what had happened since that time, and they were celebrating and that was that it was in his hands but what was to be found in its heart and head; not judged by its material possessions but its ability to do and feel.

The new lodge quarters are located on the second floor of the building at the north-east corner of Garitty and Front streets, the first floor being occupied by the First National Bank. The hall is built of light buff face brick and woodwork, and ample windows for light and ventilation. The lodge room proper is simply but magnificently furnished.

Hubbard City Chapter No. 156, R. A. M., has been made to have an almost 100 per cent attendance of the membership of Hubbard Lodge for the occasion and many of the members came from distances to attend the celebration. Visitors were present from Waco, Hubbard, Dawson, Corsicana, Kerens, Wortham, Dallas, Blooming Grove, Beck, Ed Shappard, Euureka and other points.

STOCKS AND COTTON SOARED AT OPENING MONDAY MARKETS

(Continued from page 1.)
Ishem Steel, International Telephone, New York Central, Baltimore and Ohio, North American and Southern Pacific, Union Pacific as up \$8 and Auburn nearly \$10.

NEW YORK, June 22.—(P)—Security and commodity prices soared at the opening of the markets today in response to President Hoover's week-end proposals for a moratorium on debt payments and reparations. Advances of \$2 to \$5 in leading stocks were numerous, while cotton climbed \$2.50 to \$3 a bale here.

Auburn Auto showed the largest initial advance, \$15, air reduction skyrocketed \$9. A 20,000 share block of U. S. Steel changed hands at \$94.75, up \$2.

Some of the largest opening blocks were:

20,000 shares of General Motors, up \$2; 10,000 General Electric, up \$1.75; 10,000 International Telephone, up \$2.25; 10,000 Radio, up \$1.50; 15,000 United Corporation, up \$1; 10,000 International Nickel, up \$2; 10,000 Consolidated Gas, up \$2. It was one of the most violent opening advances on the stock market in years. Leading financiers and business men expressed general approval of President Hoover's move.

After the first huge outpouring of buying orders had been satisfied on the stock exchange here, prices sold off from highs under a ripple of profit-taking which cut \$1 to \$3 from the earlier quotations of leading issues. Excitable Auburn Auto lost more than half of its climb. United States Steel Company, opening up \$2, extended its rise to \$95 and then lost a dollar. Air reduction lost \$5 on a \$9 hope. However, the market became dull when the heavy realization of the steel and price again rallied, U. S. Steel surpassing its previous high.

NEW ORLEANS Cotton Advanced
NEW ORLEANS, June 22.—(P)—Cotton here advanced nearly \$2.50 a bale at the opening today in response to the strength of foreign markets, which rallied in response to the Hoover international debt moratorium plan.

Liverpool came in 30 points better than due, cotton at Bremen advanced 78 to 113 points and Alexandria, Egypt, 125 to 169 points, according to the local exchange cables.

Trading became very active here, and October futures which sold Saturday at 9.33, rallied to 9.80, a gain of 47 points.

Cotton Gains \$3.50 a Bale.
NEW ORLEANS, June 22.—(P)—Cotton gained approximately \$3.50 a bale in the most active trading of the season on the local exchange today.

The buying movement here developed from the start in response to strength of foreign commodity markets and sharp advances in the New York stock market, and continued almost throughout the session, futures making new highs for the day, the end 69 70 points above Saturday's close.

In this market, as elsewhere, the bullish sentiment was in response to the Hoover international debt moratorium plan.

RUSK PUBLISHER DIED IN HOSPITAL HERE SATURDAY

H. O. Ward, aged 63, publisher of the Corsicana Herald, died in the Corsicana Hospital and Clinic late Saturday afternoon after being stricken with apoplexy a few miles out of Corsicana while en route from Glenrose to his home in Rusk.

The body of the publisher was taken overland to Rusk Sunday and funeral services were held there Monday. He is survived by his wife and one daughter.

Ward has been the editor and publisher of the Rusk paper for many years, and has been active in newspaper circles for more than 30 years.

Friday at Glenrose, but attempted to return to his home in Rusk and suffered a second attack a few miles from Corsicana, and was rushed to a hospital here, succumbing after his arrival.

The body was prepared for burial by the Sutherland Funeral home.

ARMAND FALLIERES, FORMER PRESIDENT OF FRANCE, DIED SUDDENLY IN MEZIN MONDAY

MEZIN, France, June 22.—(P)—Armand Fallieres, former president of France, died suddenly today.

M. Fallieres was 90 years old. He was president of the third French republic from 1906 until 1913. Previously, he was president of the senate and a minister in several cabinets.

He was a confidante of the late King Edward of England, the Prince of Wales, now King George VI. He was one of the crowned heads of Europe.

One of the few surviving founders of the Third Republic passed away in Mezin, France. He was a senator, minister and president he aided the growth of the French nation, but his strong Republican tendencies did not deter a loving active social life among Europe's royalty when he became president.

His career encompassed the entire period from the Franco-Prussian War until 1910, when it sloughed. He was revealed, the rumblings of the World War already were being heard in the Continental capitals.

Fallieres was elected deputy from his department in 1876, the first really Republican parliament after the Royalist party had been ousted. He later became leader, Marshal MacMahon, forced to abandon power.

Becoming under-secretary of the interior department in 1880, he began a spectacular career as holder of government portfolios which lasted for ten years.

That year he also became minister of the interior in Jules Ferry's cabinet. Two years later he received the same post under Ducloux and the following year was called upon to form his own cabinet, in which he was minister of justice in Tirard's cabinet, 1887.

His other cabinet posts after he lost control of the government were: Minister of the Interior under Rouvier, 1887; Minister of Justice in Tirard's cabinet, 1887; minister of public instruction in Tirard's second cabinet, 1889, and again minister of justice under Freycinet in 1890.

Five years later he was elected to the presidency, succeeding Emile Loubet, where he marked himself.

By the Associated Press.
Five persons, two of them whom sought to rescue others, were drowned in Texas over the week-end.

The dead:
AGNES CORINNE CATHEY, 12, Brownwood.
ROBT. W. DELANEY, 8, Lynchburg.
MIGUEL GUERRERO, 36, Austin.
CON WILLIAM BROTT, 9, Amarillo.

VICTOR BLOTT, 20, San Angelo.
The Brott child son of Mr. and Mrs. C. W. Brott of Amarillo, was drowned late Sunday in Box canyon, 15 miles northeast of Amarillo. The boy was wading in a shallow stream when he stepped off in a deep hole, unnoticed by other members of a picnic party.

Block was drowned in Lake Nasworthy near San Angelo when a small boat capsized. Two companions swam out. His body had not been recovered early Monday.

The other boy was drowned in the Houston ship channel when he went to the aid of his four-year-old brother, Ray, who had slipped from an abandoned ferry boat, where he was playing, into the deep waters of the channel.

The brother was rescued by Oscar Hilberg, chief of a government dredge.

Guerrero was drowned in the Colorado river when he sought to rescue his eight-year-old son from a treacherous whirlpool. His son was saved.

The Cathey girl, wading with eight other companions in shallow waters of the Colorado river twenty-five miles south of Brownwood, was drowned when she stepped into water eight feet deep. Her body was recovered 15 minutes later.

Amarillo Boy Drowns.
AMARILLO, June 22.—(P)—Funeral services will be held today for Con William Brott, nine-year-old son of Mr. and Mrs. C. W.

as a strict observer of constitutional prerogatives and presidential tradition which make that of a far less potential factor than the heads of other republics. He contributed considerable, however, to the establishment of the Entente Cordiale with Great Britain and helped to develop that into the triple alliance with Russia.

His son, Andre, received his first political recognition in 1926 when he became under-secretary for finances.

Necessarily limited as is the career of a president of France, Fallieres enjoyed a social position during his term which had an undetermined effect upon the country's international dealings.

King Edward was a particularly close friend, their meetings including numerous dinners and parties in both their capitals. The Prince of Wales, now King George V., also enjoyed his hospitality, while he exchanged visits with King Haakon of Norway, the King of Spain, King Frederick of Denmark and the King of Greece. All of the other crowned heads of Europe also were his guests.

FORMER SERVICE MAN DIED MONDAY AT MILDRED HOME

Azariah F. Jones, aged 40, died at his home at Mildred Sunday morning after a long illness, and funeral services will be held at Hamilton cemetery at 5 o'clock Monday afternoon, with Rev. Burns conducting the last rites.

Burns conducting the last rites. The deceased was an ex-service man and members of the Johnson-Wiggins Post No. 22 American Legion will assist in the funeral services.

He is survived by his wife, four children—Otis Gene, Lerline, L. D. and Freddy Allen Jones; three brothers, Burt and T. Jones of Angus, and L. E. Jones of San Angelo; four sisters, Mrs. Nellie Parr of Comalita, Okla., Mrs. Lizzie Wetzel of Waco, Mrs. Emma Wiley of Fairbairn, Okla., and Mrs. Ella Ragin of El Dorado Springs, Mo.

Corley-McMahon Funeral Home had charge of the funeral.

Additional Sum Received For Sick Girl Late Saturday

Although the sick girl for which a sum was raised by popular subscription had already been sent away and a sufficient amount received to take excellent care of her during the first month near San Angelo, a check for \$5 was received at the Sun office late Saturday from R. J. Jackson. The check was mailed from Tyler by Mr. Jackson where he was at the time, he having noted the movement and responded as he always does, to all movements that are for the good of his community and his fellowman.

WATERFRONT FIRE DOES DAMAGE WILL RUN TO MILLIONS

SEVERAL WAREHOUSES AND GRAIN ELEVATORS CONSUMED BY BLAZE

ST. JOHN, N. B., June 22.—(P)—A fire swept the West St. John waterfront today, causing damage which officials feared would mount into millions.

Practically the whole harbor commission facilities at West St. John were wiped out. Several warehouses and a grain elevator were destroyed.

An unconfirmed report at noon said the Canadian Pacific Coastal steamship, Empress, was ablaze. Estimates of the damage ranged as high as \$10,000,000.

The government immigration buildings stood in the way of the onrushing flames, but the wind was blowing away from the upper town and it was believed safe.

THIRD TRIAL OF VERNER DONOHUE UNDER WAY TODAY

WICHITA FALLS, June 22.—(P)—The third trial of Verner Donohue on a charge of slaying Herman Walden in Wilbarger county in February, 1929, opened before Judge P. A. Martin in the 88th district court here today. One juror had been selected when court recessed at noon.

Walden's body was found in a pasture more than two years ago. The first trial of the case in 1929, resulted in a verdict of guilty and a sentence of 25 years in prison. This verdict was reversed and the case remanded last summer. The second trial was held in Wilbarger county last February and resulted in a hung jury. The case was then transferred to Wichita county on a change of venue.

FEDERAL DEFICIT DRIVEN DOWN BY MORE TAX PAYMENT

WASHINGTON, June 22.—(P)—The federal deficit today was driven down to \$879,168,571 by additional payments on the second installment of 1930 income taxes. Income tax payments tabulated for June 19 totaled \$41,033,048 and caused a decline of \$28,935,000 from the preceding day's deficit figure.

The continued flow of income tax payments led treasury officials to revise downward earlier estimates of the year-end deficit to approximately \$850,000, or nearly \$100,000,000 below estimates of about a month ago.

Annual Celebration By Legionnaires of Freestone County

TEAGUE, June 22.—(Spl.)—Plans are rapidly being developed for the third annual Fourth of July celebration sponsored by the Wilbur A. Harrison Post No. 238, American Legion of Freestone county.

Only one day of festivities will be engaged in. The day will be opened at 11:30 a. m. with a spectacular parade, and the first performance of the rodeo will begin at 2 o'clock p. m.

A long list of prizes amounting to several hundred dollars has been compiled and indications are that there will be many contestants in this year's parade.

Among the events will be goat roping, steer riding, calf roping, wild cow milking, relay race, bronco riding, band box race, shaggy pony race, burro race, mixed pony race, bare back bronco riding, and a number of special events.

PROBING DEATHS TWO GIRLS AFTER EATING SANDWICHES

LEBANON, Ind., June 22.—(P)—The deaths of two young girls, 14 and 15, who died after eating chicken sandwiches their mother said she prepared for a family reunion here yesterday, were investigated by authorities of two counties today.

Attending physicians here said they believed the girls victims of poisoning.

Coroner G. A. Owsley of Boone county, availed a report on an analysis of white powder, contained capsules found in the sandwiches.

The dead are, Alice Jean Simmons, 10, and Virginia Simmons, 14, daughters of John W. Simmons, 48, farmer.

Simmons was affected slightly, while Horace N. Jackson, 55, and his stepson, Lester Carr, 18, of Hancock county, were in a critical condition at a hospital.

Mrs. Simmons told Coroner Owsley she prepared the sandwiches at their home in Lebanon, and that they were placed in a box and carried to Lebanon in the family automobile. The capsules were discovered when guests at the food which had been placed on a table.

Border Gambling Houses Be Closed

MEXICO CITY, June 22.—(P)—Word was received by the federal government today from the governor of the state of Tamaulipas to the effect that he had decided to close the recently opened gambling houses in Nuevo Laredo, Matamoros and Reynosa in accordance with the federal plan to discourage gambling.

President Ortiz Rubio, recently cancelled the authority of the department of interior to handle gambling permits. The president returned this function to the state governments.

REDS DEFEATED IN ONE BATTLE, MEET ANOTHER SUCCESS

HONGKONG, June 22.—(P)—While Gen. Chen Ming-Shu's ninth army, 7000 strong, was defeating a division of Kiangsi province communists today, a battalion of Reds ambushed a group of President Chiang Kai-Shek's soldiers and captured 20,000 rifles, 100 trench mortars and 30 machine guns.

Details of both engagements were meager and dispatches failed to mention casualties, but they were believed to have been heavy.

Developments in the break between the Nationalist and the newly-established Canton government were overshadowed by the Communist situation in Southern China. President Chiang himself was preceding south from his capital, Nanking, to take command of his forces in the field against the Red menace.

Reports indicated he would have at least 200,000 troops under his command, and that he would lead where the Communist threat is most serious.

Meanwhile both the Nationalist and Canton governments fought for the support of Gen. Chen Ming-Shu and his 7000 soldiers. Officially the Southern government considered him neutral, but there seemed little doubt, dispatches said, that he soon would advance upon the city of which he once was governor—Canton.

Bail Is Granted To Carlos Guinn

AUSTIN, June 22.—(P)—The supreme court today granted Carlos Newton Guinn, Fort Worth, a writ of habeas corpus ordering his release from jail on \$500 bail. Guinn was sentenced to jail for contempt of court by Judge James E. Mercer for alleged failure to pay temporary alimony for support of his wife and two children.

He was sentenced June 8 to serve until he has purged himself of such contempt "in such way as the court may seem meet and proper."

The writ was made returnable to the supreme court June 30.

Mexican Woman Is Buried Here Monday Died On Sunday

Funeral services for Mrs. Guadalupe Rodriguez, 56, were conducted at Oakwood cemetery, where interment was made at 11 a. m. Monday, by Rev. M. Adame, pastor of the Mexican Presbyterian church here. Mrs. Rodriguez died at her residence Sunday.

Funeral arrangements were handled by Sutherland Funeral Home.

CONSCIENCE CLEAR SAYS KILLER; FACES CHARGE OF MURDER

STOCKTON, Cal., June 22.—(P)—Clinging to his own confession of the slaying of Enid Mariott, Wiggins, Colo., school teacher, 21-year-old John Schoplin today awaited the arrival of Colorado officers to return him to face charges of murder.

"Death may await me," the confessed killer said, "but I don't care. My conscience is clear."

The killing as related by Schoplin and as reconstructed by Sheriff Rufus A. Johnston differ in several important particulars. The youth insists he shot the 32-year-old school teacher "because she talked too much" about his going with a "married lady." Declaring Miss Mariott was not given to gossiping, Johnston insisted the murderer must have had some other motive, and was possibly a hired killer.

Schoplin said he shot the young woman and her body fell into an irrigation ditch. Colorado officers, however, insist the body lay in a hay stack at least 24 hours, and then was dragged to the canal and thrown in.

Saturday Trades Day at Wortham

WORTHAM, June 22.—(Spl.)—Saturday was the regular monthly Trades Day in Wortham, and it proved to be one of the largest attended occasions of the year. The town was full of cars and people from early morning. The outstanding event of the day is the afternoon drawings. The premiums are given by the local merchants, and trades day is sponsored by the Wortham Lions club.

Beauty Chats

By Edna Kent Forbes
HOW TO SIT DOWN

You will, of course, say that you know how to sit down just as well as anybody. But the question is, do you know how to sit down gracefully and how to keep a graceful pose while you're sitting still? The problem really is how to sit still, for the modern woman is a very fidgety creature. Rule one is, don't slump. I hate to advise anyone to wear corsets, but if you have to wear one, artificial aid toward keeping your abdomen in and your shoulders flat, you'd better do so. Rule two is, choose a comfortable chair. It is not possible to be graceful, and it is much less possible to be comfortable, in some of the modern monstrosities. Rule three is to sit in the chair so your back is supported, and to keep your hands still.

Every Pose Must Be Graceful

To a large extent the modern craze for cigarette smoking by women is based on the fact that they've nothing to do with their hands. During the war we carried knitting about and worked at all sorts of odd movements. What a pity we don't do something of the sort today. Why not start a useful needlework fashion if you belong to the restless fidgety type? If you can't keep your hands busy, keep them still. They will look prettier if you sit with them clasped loosely in your lap. Or you can hang on to the always useful handbag. They are trying to revive the fan for evenings, that gave a graceful employment for idle hands. But I think if you're pleasantly conscious that your hands look nice it solves the greater part of your problem. Many of the women who don't know what to do with their hands are unconsciously ashamed of them and would like to hide them. Therefore be sure that your manicure is perfect, and that your hands themselves look white and well kept. If you feel, even then that your hands are ugly, wear some stunning large ornament, a ring or a bracelet, or, for day dress, wear beautifully cut loose wrist gloves and keep them on as much as possible.

ly take all the natural secretions from the pores, especially a cleansing that is supposed to help clear out black heads. The skin will feel drawn or dry until enough oil has been secreted or some oil applied to the skin. Close the pores by making the last rinse very cold, and then go over the skin with a wee bit of oil or a cream. This is not a massage in any sense, but just enough lubrication to soften the skin again.

Bertha H. M.—It would take many months of special exercises to make a loose full butt firm enough to go without any support from a brassiere. Before you take the breathing exercise, sniff water up through each nostril and then blow it out again, and you will not only cleanse the head but also get better results from your deep breathing practice.

D. M. A.—Any extra cleaning you give the skin must necessarily

DOZEN DEAD OF HEAT AND OTHERS FROM DROWNING

LITTLE RELIEF IN SIGHT FOR SUN-STRICKEN AREA OVER WEEK-END

CHICAGO, June 20.—(AP)—Tornadoes and thunder storms heralded the approach of summer with a flourish over the northern plains states today, but 90 to 100 degrees temperatures gave notice that summer was here in advance of her regular lease.

Intense heat enticed throngs to resorts for the week end as the mercury lolled listlessly in the mindless Arizona, New Mexico and Tennessee gave official reports of hundred degree temperatures yesterday and 28 states saw the mercury rise above 90.

To the east of dead a dozen drowned, a dozen or more fallen victims to the broiling heat—was added today the name of John Smith, 40, of Kanawha, Iowa, whose body was pulled from a twisting wind near Hayfield, Iowa, which wrought damage to the countryside.

Other tornadoes and windstorms battered homes and buildings in Iowa and Minnesota, felled trees and crops and leveled telephone poles.

Thunder showers were forecast for tonight and Sunday over most of the inland states, climaxing the worst heat wave of the year. In the wake of these storms, the weather bureau said, would come cool winds bringing relief.

CHICAGO, June 20.—(AP)—The middle west was sun stricken today.

More than a dozen deaths from the heat were counted. The drowning toll mounted to 12 at packed beaches and resorts.

Rains and windstorms brought relief to sections of Minnesota, Iowa and Wisconsin but the rest of the Mississippi valley, from Ohio to Oklahoma, was seared by temperatures that rang from 95 to above the century mark. Weather bureaus held little hope for week-end relief.

Moderate Michigan was hard hit. In Escanaba, a 95 yesterday was the hottest since 1890. A road worker dropped dead. Detroit wilted under 94. A baby died. Prostrations were numerous. Two drownings were reported.

The thermometer ranged above 90 over all Ohio, skyrocketing to an unofficial 100 in Columbus. Cleveland and Bellville had heat deaths and a caddy was overcome at a Dayton golf tournament.

Across Indiana, Illinois and Missouri the sun scorched its way. Fearful of their corn and pea crops, Indiana farmers looked with alarm at the intense heat. In Illinois, a fourth in Indiana and a fifth in Missouri. Springfield, Mo., had one dead.

Half a million persons jammed Lake Michigan in Chicago and suburbs. The maximum of 94 was the worst in the Windy City since June 19 since 1872. Three deaths resulted.

It was 90 and above in Nebraska with one dead in Omaha.

Three more succumbed to the heat before rains and cooling breezes brought relief to Minnesota. Five were drowned.

The Oklahoma wheat belt wilted. In Cherokee it was 100, the same at Altus.

Storms Cause Damage.

ST. PAUL, Minn., June 20.—(AP)—High winds struck scattered parts of Minnesota last night and today, causing widespread property damage, but there was no loss of life.

Trainmen at Fairmont, Minn., reported 18 persons killed in a tornado at Alberta, Minn., but investigation proved the report erroneous. Frightened residents of Elk River, Minn., fled from the town as a tornado but later information revealed the town was subjected to strong wind storms and a heavy rainfall.

Hot In New York.

NEW YORK, June 20.—(AP)—Old fashioned summer heat—"90 in the shade" or hotter—lingered for the second day in the eastern United States today. In the metropolitan area a number of deaths were attributed to the heat, although there was only one fatal heat prostration.

Thunder showers and cooler weather were predicted for tonight and tomorrow.

Tornado Kills One.

HAYFIELD, Ia., June 20.—(AP)—John Smith, 40, of Kanawha, was killed last night in a tornado which did considerable damage.

Oklahoma Promised Relief.

OKLAHOMA CITY, June 20.—(AP)—Possible relief from the hot test days of the year was seen today by J. P. Slagter, secretary of the Oklahoma State Board of Agriculture, who predicted partly cloudy skies for tomorrow.

Hundred degree temperature marks were recorded yesterday in Altus, Okmulgee and Cherokee while the central part of the state saw thermometers rise to 94. At Cherokee street temperatures in the sun were unofficially said to be 112.

TWO FIRES DAMAGE HOMES TO EXTENT OF ABOUT \$3,000

Two fires Sunday night resulted in damage estimated by Fire Chief Elmer Keith at \$3,000. The first alarm was received from the residence of I. O. Shelton, negro, at 913 East Sixth avenue, and the loss estimated at \$1,000. The fire is believed to have been caused by defective wiring. The alarm was received at 10:10 p.m.

Another alarm was received at 11:15 Monday morning from the residence of R. W. McKinney, at 1115 Collins street, believed by Chief Keith to have been started by defective sparks from the furnace in the evening. The loss is estimated at \$2,000 with \$2,000 insurance.

MAKE THIS MODEL AT HOME

SMART FROCK IN SIZES 38 to 48
PATTERN 2161
The Corsicana Daily Sun 15c Practical Patterns

By ANNE ADAMS

Here's a charming frock embodying the slenderest of the latest figure. The deep curved neckline and seaming of the skirt flares have decided slimming effects most welcome to mature women, yet the lines are youthful and graceful. The sleeves are short for summer comfort, and smartly edged with double flares to make the arms appear more slender. The pert tie, pulled through an attractive trim below the dainty vestee of lace or net. Pattern 2161 makes up well in georgette, voile, lawn, swiss or chiffon.

Obtainable only in sizes 38, 40, 42, 44, 46 and 48. Size 38 requires 4-1/2 yards of 38 inch fabric. Yards for every size, and simple, exact instructions are given. No dressing experience is necessary to make this model with our pattern.

Send Fifteen Cents (15c) in coins or stamps (coins preferred), for each pattern. Write plainly your name, address and style number. Be sure to state size wanted.

The New Spring and Summer Pattern Catalog features an excellent assortment of afternoon, sports and house dresses, lingerie, pajamas and kiddy frocks. Also Delightful Accessory Patterns. Price of Catalog, Fifteen Cents. Catalog with Pattern, Twenty-Five Cents. Address all mail and orders to The Corsicana Daily Sun Pattern Department, 248 West 17th Street, New York City.

PAYMENT IN AND OUT OF ENGLAND'S OUT-OF-WORK FUND EXPLAINED BY A. P. WRITER

(Editor's Note:—Who pays the bill for England's unemployment insurance? The writer, today describes the method of collecting the money for "dole" payments. This is the second of a series of articles on the subject.)

BY EDWARD STANLEY

LONDON, June 19.—(AP)—England's out-of-work insurance scheme gets its money from three sources. The employer, the employee, and the state each chip in.

It operates on a weekly basis. The money is paid in each week and the benefit paid out. The payments are scaled and divided into three classes for each sex, based upon earning power and responsibilities.

The system of collection is simple. Each workman has a little card which he deposits with his employer. Every week the employer deducts the right amount from the workman's wages, adds his own contribution, and puts a stamp for the total amount on the card.

When his employment ceases, the employer hands over the card, fully stamped. If he is going to another job the workman takes it to his new employer. If not, he takes it to the local office of the ministry of labor where it is held until he finds fresh employment.

Friday is payday in England. It also is payday for the unemployed. The insurance benefits are paid in cash over the counter at one of the 1,165 employment exchanges of branch offices which dot the island.

But nobody in the long queues outside the exchanges get a lot of money, for the sums shown small to American ears.

The present rates are:

Men, 21 to 25 \$4.13
Men, 26 to 30 3.40
Men, 31 to 35 2.19
Boys under 18 1.46
Women, 21 to 25 3.66
Women, 26 to 30 2.92
Girls, under 18 1.82
Girls, under 17 1.21

In addition it is possible to obtain additional benefits for dependents at the rate of \$2.19 for a dependent child48

The chief condition for receipt of benefit is that 30 contributions must have been paid in during the two years immediately preceding application. There are certain exemptions in case of illness. The claimant must be "able of and available for work."

DALLAS SUPPLY PREACHER CONFESSES HE FAKED STORY OF HANGING BY FOUR MEN

DALLAS, June 20.—(AP)—A 30-hour mystery which centered about the congregation, the regular pastor and the supply pastor of the North Dallas Baptist church of the North Dallas Baptist church confession last night of B. P. Brown that he faked himself up to an electric fan in the church, and was the author of a number of threat letters addressed to himself and the Rev. Homer L. Marler.

Although the pastor and leaders of the church talked of the seriousness of the offense, the threat letters, and at one time thought the student pastor might be questioned today by police, it was rumored later that nothing more would be done about the matter.

The supply pastor went before members of the congregation, asked their forgiveness, and told them it was his desire to die—to end his life in the church near the pulpit from which he occasionally preached—that prompted his action.

"I wanted to die in the church, but I didn't quite have the nerve," Brown said.

He said he was not so securely bound up as some thought, explaining that one time during the night he liberated himself, went to "what time it was" and, returning, tied himself up again.

When officers liberated him from his trussed up position early Thursday, Brown said he had been fastened up by four masked men, one of whom has intercepted him as he neared his home, forcing him to go to the church.

The young supply pastor's story caused the posting of guards about his and the Rev. Marler's homes last night.

FEDERAL OFFICIALS KEEP HANDS OFF OIL SITUATION; HEARTENED BY RECENT TREND

WASHINGTON, June 22.—(AP)—Heartened by recent events, particularly the unit operation agreements in East Texas, federal officials are refusing to get into the oil industry temporarily at least, a "hands off" policy.

They are fairly hopeful that economic factors will compel the conflicting interests to conquer over production and the demoralized price situation.

Even the most sanguine royalty owners, for instance, cannot be enthusiastic about drawing out of the ground when they collect only one or two pennies a barrel from it. At that price petroleum is far from being the black gold it once was called.

Similarly the import situation is believed by Washington officials to be firmly in the grip of economics until prices go much higher. Importing oil at a loss is not encouraged, and owners of foreign wells to increase the amount laid down at American refineries.

The twenty day period for which the principal importers agreed to curtail their inflow 25 per cent or more is expiring. Officially, Secretary Wilbur and other members of the oil conservation board have maintained strict importation, but start up, some of the officials privately observed that importers would not increase their volume now because it mostly goes to bring oil from the Gulf to buy Mid-Continent production.

So confident of this have they been that it was said on good authority the officials have "kept as far away as possible" from the importing companies and have no knowledge of their plans.

About three weeks ago, however, a federal official spoke about the oil situation, and he spoke sharply. Secretary Wilbur issued a statement about the Texas situation which was interpreted as telling that state it was holding up the procession and had to do something about it. The conducting interests of the state appear now to have taken steps to correct the unbridled flow which Wilbur said was steadily wrecking Mid-Continent limitation of foris.

FIVE HEAT DEATHS WITH PROSTRATIONS REPORTED COMMON

MERCILESS HEAT WAVE RULED NORTHWEST WITH LITTLE RELIEF IN SIGHT

CHICAGO, June 19.—(AP)—Merciless heat ruled the northwest today.

The swelter burned out five lives. Heat prostrations were common. Two bathers drowned. Temperatures soared around the century mark.

Two aging men succumbed to prostrations in Minnesota, one at Worthington and the other at Pine Island. A third died in Bismarck, N. D. In Milwaukee, a boy attending his graduation exercises, was stricken in the burning sun and died.

In Omaha, Neb., a man died at the wheel of his automobile, the wilting wave aggravating heart disease.

Little hope for relief was held out by the weather bureau.

Drought Brings Appeals.

WASHINGTON, June 19.—(AP)—New warnings of drought in the Northwest and appeals for help are perplexing Secretary Hyde, who is understood to feel the money appropriated for drought relief was for the last year's drought only. However, he is considering steps to be taken.

Senator Walsh, Democrat, Montana, received a message from the Montana Commercial Club stating that Phillips county is "facing a most serious situation."

Reports of drought in North Dakota also were received at the office of Senator Nye or that state.

WARM IN OKLAHOMA TEMPERATURES MOUNTING DROUGHT HERE EARLY THIS AFTERNOON. AT OKMULGEE THE TEMPERATURE REACHED THE 100 MARK SHORTLY AFTER NOON.

OIL MEN PRESENT EAST TEXAS OUTPUT PLAN TO COMMISSION

(Continued from Page 1)

duction in East Texas within the next two weeks would be 450,000 barrels daily, which would be considerably more than market demand.

He based this figure on the statement there were at present 871 producers and that 317 wells would be completed within two weeks. Each of these wells would on a tract of 100 acres or more, it would be permitted 1,500 barrels.

Moody Says 55,000 Barrel Cut.

Dan Moody, former governor and one of the proponents of the plan, said production at the outset would be only about 250,000 barrels. He read a telegram from Ray Richmond, umpire of the Henderson and Kilgore areas, stating production had been cut 55,000 barrels since Saturday.

Richmond stated there were only eight violators in the two fields and some of them had promised to come into line, Moody said.

Roeser stated he had been informed there were 17 dissenters. Proponents said the dissenting companies would not join wholeheartedly in the plan unless the railroad commission issued an order and therefore asked an order as soon as possible. Pat M. Neff, commissioner, said he saw no reason why an order could not be issued today and reaffirmed Monday. Other members of the commission had indicated no order would be issued before a hearing next Monday because of the statutory requirement of a hearing after ten days notice.

AUSTIN, June 22.—(AP)—A group of oil men was here today to discuss the new Cranfill plan of East Texas oil stabilization with the railroad commission.

Among those present were Tom Cranfill of Dallas, originator of the plan. Captain J. P. Lacey of Dallas, chairman of the arbitration committee and Claude Wild of Fort Worth, executive vice president of the Texas Independent Petroleum Association.

W. L. Todd of Dallas, chairman of the Texas oil emergency committee, also attended the conference. Todd said his group was willing to follow an order issued by the railroad commission but it had not lessened its efforts for an immediate special session of the legislature to give the railroad commission additional conservation powers.

D. R. Parker, oil and gas supervisor of the railroad commission, said he had received information that ten operators in the Longview area were violating the new plan today. Parker said he had not heard from the Henderson and Kilgore districts.

The new plan was instituted Saturday.

Panhandle Quota Boosted.

PAMPA, June 22.—(AP)—H. J. Corcoran, proration umpire for the Panhandle oil field, announced today that the daily allowable had been increased from 40,000 to 48,000, to permit the Phillips Petroleum Company to purchase 5,000 barrels daily for its Borger refinery and other companies to take an additional 3,000 barrels daily. The new Gray county allowable is 42,178 barrels.

Sets Speed Mark

Harold "Young Pete" Hill (above), 18-year-old Wichita, Kansas, pilot, recently set a new world's speed record for juvenile fliers by averaging 170.8 miles per hour over a two-mile closed course at Wichita. Young Hill flew at an altitude of 100 feet to set the mark. He's also holder of the juvenile altitude record of 20,000 feet.

CHIEF OF POLICE AND TWO OFFICERS KILLED IN RIOT

VERA CRUZ, Mex., June 22.—(AP)—The killing of the chief of police, two of his officers and three civilians in the town of Eustaquio Saturday night during a riot over a priest's funeral was revealed today.

The police attempted to break up a demonstration protesting the slaying of the priest from ambush. They were attacked with stones, clubs and other weapons and were badly beaten. Many persons were injured.

Dispatches said all was quiet today and authorities had the town under control. Reports that troops had been dispatched there were said to have telegraphed Papal Nuncio Ruiz Y Flores in Mexico City denying that Catholics participating in the funeral had instigated the attack.

Word from the town of Totula said that the first attempt to eject a priest from his church in accordance with the new law resulted in a threat to lynch Mayor Acide and that he had gone to Jalapa to confer with Governor Tejeda.

When it became known that the mayor had received orders to enforce the measure, limiting the number of priests in the state to 11, a crowd of several hundred persons went to his home and warned him that if he attempted to carry out his order he and his family would be hanged.

CHARGED WIFE MURDER OKLAHOMA CITY, June 22.—(AP)—Norman J. Smith, a barber, went to trial today on a murder charge growing out of the shooting of his wife on a highway here April 21. The state sought a jury not opposed to the death penalty. Smith has indicated his plea will be self defense.

for an immediate special session of the legislature to give the railroad commission additional conservation powers.

D. R. Parker, oil and gas supervisor of the railroad commission, said he had received information that ten operators in the Longview area were violating the new plan today. Parker said he had not heard from the Henderson and Kilgore districts.

The new plan was instituted Saturday.

Panhandle Quota Boosted.

PAMPA, June 22.—(AP)—H. J. Corcoran, proration umpire for the Panhandle oil field, announced today that the daily allowable had been increased from 40,000 to 48,000, to permit the Phillips Petroleum Company to purchase 5,000 barrels daily for its Borger refinery and other companies to take an additional 3,000 barrels daily. The new Gray county allowable is 42,178 barrels.

SPECIAL COUNSEL EMPLOYED TO PRESS SERIES OF ACTIONS

Ballard W. George, former county attorney, was employed as special counsel for the City of Corsicana in the series of suits brought against the municipality in connection with the recent improvement program at a special meeting of the city commission late Saturday afternoon.

Both the city attorney and special counsel were instructed to push the cases as rapidly as possible, and to prepare for a speedy trial if possible, unless an acceptable compromise should be offered. The commission was in unanimous accord on the employment of special counsel and in the instruction to the attorneys.

The commission also authorized a contract with the Magnolia Petroleum company to supply the city's gasoline for one year. Purchase of a car of building sand for the street and park departments was authorized.

Considerable discussion followed on disposition of the airport contract but no action was taken.

R. H. Gregory of Streetman, was admitted to the P and S hospital Sunday for medical treatment.

World Dry Chief

Ella A. Boole, of Brooklyn, N. Y., who has been vice president of the World's W. C. T. U., as well as president of the United States branch, was elected president of the world-wide dry organization at its convention held at Toronto, Ontario, Canada. At the conference of W. C. T. U. workers at which Mrs. Boole (above) was elected, the organization went on record in opposition to putting the government in the liquor business Wednesday.

BIG WHITE BRAHMA BULL RAN AMUCK AT AMUSEMENT PARK

KANSAS CITY, June 22.—(AP)—Leaping Louis, 1,600 pound white Brahma bull, chewed a reminiscence of today in a pasture within seeing distance of his great est public triumph.

Louie furnished the thrills of a rodeo at the amusement resort, yesterday, injuring two persons and giving Babe, an elephant, the worst case of nervous hysteria she has had since she got stuck in the mud several weeks ago.

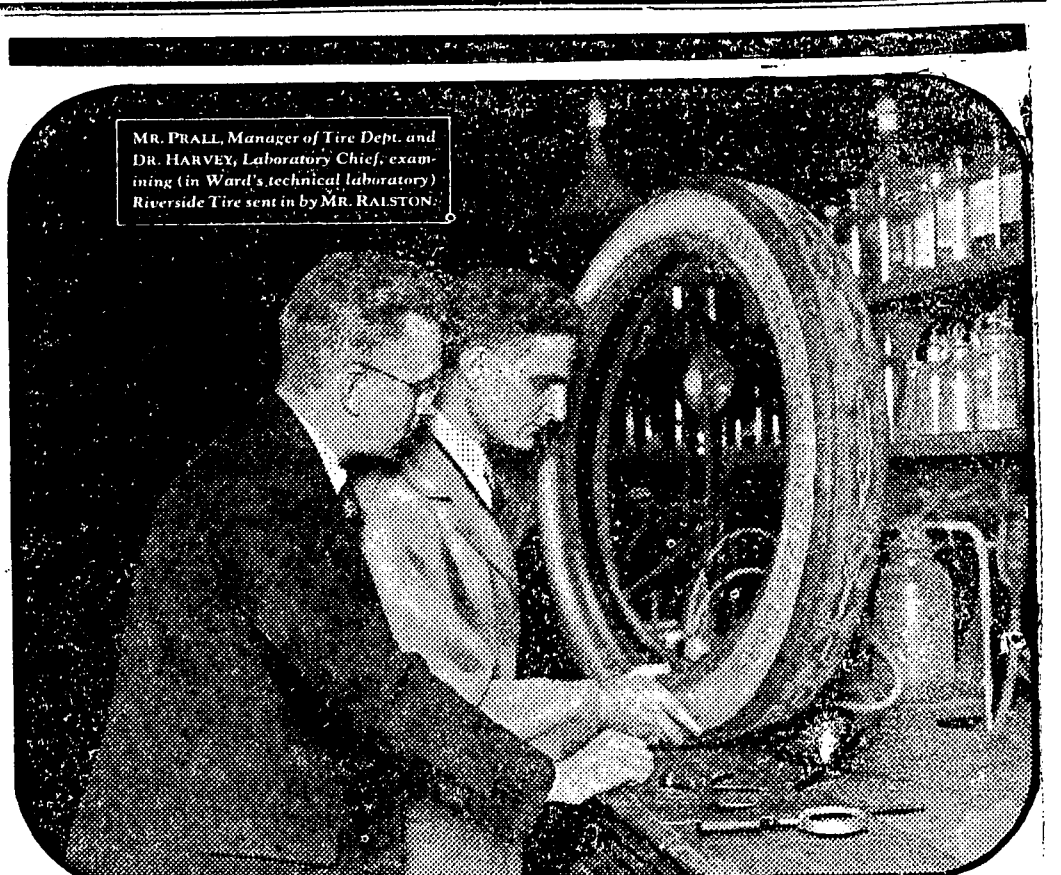

The rampage started when the bull unseated John Pacey, Rawlins, Wyo., lowboy.

The open spaces, as the animal scurried for trees, the lake and crushed down a 6-foot wire fence. T. N. Chipley, a farm hand, was mauled by the bull. Miss Helen Corbett of Kansas City suffered abrasions of her right leg.

Cowboys pursued, Louie ripped a tall light from a motor car and tore the sparo tire from another.

DALLAS LUMBERMAN DIES

DALLAS, June 22.—(AP)—Ben F. Sumner, 63, lumberman and Dallas resident 28 years, died last night at his suburban home near Dallas. Funeral rites will be held Wednesday.

86,000 MILES Here's an endurance record that speaks for RIVERSIDE Quality. The tire shown above was sent us by Mr. J. H. Ralston of Delano, California, as an expression of his satisfaction with RIVERSIDE service. Over all kinds of roads, and in all kinds of weather, this sturdy RIVERSIDE clicked off mileage. Twenty thousand, fifty thousand, seventy-five thousand miles—and still going strong! And at last, after his RIVERSIDE Cord had covered better than 86,000 miles, Mr. Ralston sent it back to Ward's as an example of RIVERSIDE endurance.

WARD'S RIVERSIDES are Turning in Amazing Mileage Records All Over America! . . . 42,000, 68,000, 86,000 MILES!

AFTER all, you buy a tire for just one thing—and that's MILEAGE. And you do get MILEAGE when you buy a Riverside. Note the tire above that covered 86,000 miles. And Mr. C. A. Puariea of Portland, Ore., writes us about four Riversides that have covered 42,000 miles and are still in use. Mr. R. H. Easter of Elma, Washington, reports a Riverside in use every day on a school bus covered 68,000 miles. These three examples are but typical of the scores of letters and reports we are constantly receiving on Riverside performance. These three testimonials came to us unsolicited—they were not bought at a price!

No wonder jealous tire makers and dealers are becoming alarmed over the tremendous swing of tire buyers to Riversides. The most unfair and bitter tactics ever known in the tire industry are being used today to fight Ward's Riversides. Advertising has appeared all over the country in which mail order tires are referred to as "mongrels." Unfair comparison charts are being published and displayed by competitors. Second line tires are being offered under nationally known tire names at the same prices as first quality Riversides—BUT THEY CAN'T BEAT RIVERSIDE PERFORMANCE, AND THAT'S WHAT COUNTS, and that's what the customer wants.

We'll Match Riversides

... on the Road ... Against ANY Tire Made and We'll Beat it in Price!

Riverside tires are one of the best known in America. They have been sold for 19 years. They are made by one of the largest tire companies in the world. They are built to the most rigid specifications known. They are the finest quality it is possible to produce. They are backed by a guarantee that is without limit as to time or mileage. AND THEY SELL FOR LESS THAN ANY FIRST QUALITY NATIONALLY ADVERTISED TIRE ON THE MARKET! These sound like sensational claims. But they're FACTS. Montgomery Ward & Co., one of the largest merchandising institutions in the world now in its 59th year in business, stands back of every claim made in its advertisements. Note this—the nationally advertised tires offered you at the same prices as Riversides are NOT the first quality tires of the manufacturers who make them—but their second quality tires—put on the market to meet Riverside prices. So, always compare qualities as well as prices. The table at the right lists some of the best known first quality tires that DO compare with Riversides in quality—YOU COMPARE THE PRICES!

SIZE	WARD'S RIVERSIDES (6-ply)	Firestone Gun-Lipped Heavy Duty Goodrich All Weather Goodrich Silverton (6-ply)
29x4.40/21	\$4.95	\$7.05
